Citrus Growers Demand Recall Of Mexican Consul

PETITION IS FORWARDED TO COLLINS

Accuse Ricardo Hill Unlawfully Engaging In Union Affairs In County

WITH A PETITION from Orange county citrus growers sent to Congressman Sam Collins of the Nineteenth district today, demanding the immediate recall of Consul Ricardo Hill of Los Angeles, to his native Mexico, on the grounds he is unlawfully engaging in unionizing activities in this county, several hundred high school and junior college students, together with other Americans and Filipinos were employed in harvesting the citrus crops as an effort to end the pickers' strike which began yesterday.

According to Stuart H. Strathman, packing house representative, the protest petition asked Congressman Collins, now in Washington, D. C., to take immediate steps to contact Mexican state officials with demands for the recall of Consul Hill.

Recalled Twice "In spite of Mr. Hill's protestations that he is not in any sympathy with radical or communist activities in any way and will not countenance their activities here, his past record shows that he has been recalled at least twice before for engaging in unionizing matters," Strathman said. "Two years ago, he was removed as vice consul because of his active part in the agricultural troubles in this county and only last fall and this spring, he was ordered back to Mexico for engaging in unionizing activities here."

At the same time, as Sheriff Logan Jackson and his men and a score or more of special deputies, patrolled all citrus areas of the county regularly to keep the peace, Consul Hill made a formal request to Towne Nylander as head of the division of National Labor Relations board at the instance of the workers here, to call upon the packing house managers to establish a board of arbitration to arbitrate matters under dispute. If the arbitration plan is accepted, one member from the striking group, another from the packing houses and a third, neutral party, would compose the board. However, Strathman said today that, so

NEVADA SOLON HURT AS MOTOR BOAT EXPLODES

BOULDER CITY, Nev., June 12.—(UP)—Members of a party of government employees, headed by Rep. James G. Scrugham of Nevada, today were recovering from burns and injuries suffered when they were trapped in an exploding motor boat while inspecting Mead Lake, artificial lake at Boulder Dam.

Rep. Scrugham suffered a severely burned hand and was rushed here to a hospital with several others for medical treatment.

Rushed to Hospital The accident occurred at the upper end of the lake, 90 miles from here, yesterday afternoon. The injured were placed aboard a second motorboat which sped to a hospital.

The explosion took place near Pierce Ferry landing. Members of the party were in two boats inspecting the recreational possibilities of Mead Lake.

The boats had been refueled at the ferry landing and Pilot John Sparks stepped on the starter to turn over the motor of his boat. The blast which followed threw occupants from the boat and showered flaming gasoline upon them.

276 Graduated At West Point Today

WEST POINT, N. Y., June 12.—(UP)—Second lieutenant commissions were handed today to the 276 Military Academy graduates of the 1935-36 class by General John J. Pershing. It was the war time commander's 50th anniversary of his graduation from the Academy. The new officers will have furloughs until September 15, when they will join their newly assigned stations.

LABOR UNIONS LOSE CONTROL IN PARIS STRIKE

PARIS, June 12.—(UP)—Police received strict orders to prevent crowds from gathering in the streets as public tension increased today with realization that labor unions had lost all control of the strike epidemic.

Numerous Fascists were arrested, charged with trying to incite disorders. Nervousness was felt in labor and government quarters alike over the activities of agents provocateurs who circulated among strikers, seeking to foment disorders. Many of them were held.

Better In North Strike reports showed the situation to be better in northern France, but hundreds of thousands of persons remained on strike despite the government's efforts to placate them.

New strikes started hourly and far overbalanced strike settlements. It was increasingly clear that the strike from series of walkouts by union men—though against union orders—had brought recruits from unorganized labor until the number of union and non-union workers on strike was equal.

Parisians generally realized clearly for the first time how far-reaching the strike epidemic was when workers in thousands of restaurants and cafes stopped work yesterday and remained in occupation of their places of employment.

Restaurants, Cafes Open An agreement made it possible for the restaurants and cafes to open today. But there was no confidence that they would remain open.

An advance towards conciliation was made in the afternoon when the chamber of deputies passed the government's bill establishing a 40-hour working week by a vote of 355 to 175.

Further progress was made when the Metal Workers reached an agreement with their employers and decided to return to work tomorrow. The butchers also agreed to compromise.

PROMISE REPORT ON ZIONCHECK MONDAY

WASHINGTON, June 12.—(UP)—Gallinger hospital psychiatrists said today they would make a report Monday on the mental condition of Rep. Marion A. Zioncheck, D. Wash., who was confined in the institution after a series of escapades in the capital and on a West Indian honeymoon trip.

CONVENTION OF DRY CRUSADERS IS UNDER WAY

Failure Of Wet Era Brandied As "Murderous" In Speech By Georgian

TULSA, Okla., June 12.—(UP)—The Women's Christian Temperance union opened its 1936-37 campaign today with a denunciation of the "murderous failure of repeal."

Mrs. Mary Armor, of Atlanta, Ga., W. C. T. U. director of evangelism, announced she would direct her attack on "red-handed murder on American highways," the result, she said, of drunken driving.

Convention Opens "The woman known as the 'Georgia Cyclone' because of her Carrie Nation fervor in crusading against liquor, announced the campaign against repeal as the organization's 62nd annual national convention opened with a day-long period of prayer.

The convention, which has attracted more than 2000 delegates so far, will get under way formally when Mrs. Ida B. Wise Smith, national president, delivers her annual address tonight.

"The increase in these murders—and murders are what they are—through drunken driving," Mrs. Armor said, "can be attributed only to repeal of our prohibition laws.

Blood on Hands "The voters who voted for liquor have blood on their hands. Most of them are sorry for it now. They say 'We didn't know it would be like this,' but it is, and it's up to the American voter to bring back a dry state."

RADIO STATION KFVD IS TAKEN OVER BY BURKE

WORD was received by J. F. Burke today from the Federal Communications commission, that they had approved voluntary assignment of the license of radio station KFVD from the Los Angeles Broadcasting company to the Standard Broadcasting company.

The Standard Broadcasting company is controlled by J. F. Burke, Mrs. Mabel Burke and J. F. Burke, Jr., each of whom owns one-third of the stock.

The assigned license covers operation of the station with 250 watts power on a frequency of 1000 kilocycles. The hours are limited, broadcasting ceasing at sun down.

HOOVER SATISFIED WITH GOP PLATFORM

NEW YORK, June 12.—(UP)—The platform adopted by the Republican National convention "admirably covers the principles and methods I have so repeatedly advocated," former President Hoover said.

GOP Waits For Borah's Next Action

WASHINGTON, June 12.—(UP)—Sen. William E. Borah established himself as the "question mark" of the coming presidential campaign today when he declined to state his attitude toward the newly-nominated Republican ticket of Alf M. Landon and Frank Knox.

Borah, disgruntled by the last minute platform stand of Landon on currency and labor, decided to withhold decision on his campaign attitude until he returns to Idaho.

Borah, one of the foremost pre-convention presidential possibilities until the Landon hand-wagon got started, expected to return home after the present congressional session.

Borah's attitude toward the Landon-Knox campaign has been considered of first rank importance to Republican chances in the forthcoming election.

"What Does He Mean?" Landon's gold standard platform demands brought from Sen. William E. Borah today the comment:

"What the hell does he mean by that?" Borah, returning to the capital from the scene of bitter convention battles over context of the platform, did not immediately announce what effect the last minute changes would have on his campaign support.

"I've made up my mind all right," said the Idaho lion as he got off the Cleveland Pullman, "but I'm not ready to make a statement just now."

His jaw was firmly set, his sentences crisp as he was greeted at the station with news of the eleventh hour platform skirmish engineered by Landon which had the effect of bringing into the party declaration of principles two of the ideas which Borah was strenuously opposed. Namely:

- 1. Currency linked to gold.
- 2. Constitutional amendment for labor.

TWO MEN KILLED IN NAVY PLANE CRASH

WASHINGTON, June 12.—(UP)—A Navy airplane launched from the cruiser Memphis crashed into the sea near Guantanamo bay, Cuba, yesterday, killing a naval officer and a seaman, the navy department was advised today.

The dead: Lieut. R. W. Larson, 33, of Omaha, Neb., and Aviation Machinist Mate 1st Class Sydney L. Harris, 31, of Brunswick, Ga.

Navy officials said cause of the accident had not been determined. A board of inquiry has been appointed to investigate.

CONTRACTS AWARDED FOR BUILDING WORK

SACRAMENTO, June 12.—(UP)—Contracts for the construction of two industrial dining room buildings at the Camarillo state hospital were awarded today by Earl Lee Kelly, director of public works.

The general work on the units will be done by the Los Angeles Contracting company and C. G. Wopschall, for \$112,485, the electrical work by the Seaside Electric company, Ventura, for \$72,555, and the plumbing and heating by Scott & Company, San Francisco, for \$15,337 and \$8578, respectively.

Killer of Mary Stammer Hanged

FOLSOM PRISON, Cal., June 12.—(UP)—Elton Stone was hanged today for the murder of Mary Stammer, 14-year-old Fresno school girl.

The silent, surly attitude which had characterized his behavior since his arrest last January was not altered as he awaited the execution hour, and he died without revealing the motive for his brutal attack upon the young girl.

BAR WERNERS FROM LIQUOR GRAFT PROBE

Central Figures In Assembly Investigation Enraged At Ejection

LOS ANGELES, June 12.—(UP)—Erwin "Pete" Werner and his wife, Helen, central figures in the current assembly investigation of state liquor control affairs, were ejected, fuming and raging from the committee's hearing room today.

The committee ordered the couple ejected in accordance with a surprise ruling, hearing prospective witnesses from the hearing room.

The ruling, decided upon at the opening session of the inquiry, was no sooner announced than Werner leaped to his feet.

"Do you mean that I am to be deprived of the right to attend this hearing?" he shouted. "I want you to know that I am representing these jinkies concerns at this hearing at their attorney."

"I am sorry but it will be necessary that you be out of the committee room during the hearing of testimony of other witnesses," replied committee chairman Leon M. Donihue firmly.

Taken From Room Werner was still sputtering his objections when his attorney, Roland Swaffield, steered him and his wife from the room, accompanied by three other sworn witnesses, Valley F. Baggett of the Home Brand Bottling company; Paul Hendrixson of the Jinkies company and Jesse G. Crain, former chauffeur for the Werners.

A sixth witness, Robert A. Brown, former Los Angeles liquor control administrator, was allowed to remain as the first person on the witness stand.

The committee then proceeded to its first official order of business—to ascertain why the state board of equalization classified jinkies bottled drinks as "wine" instead of "hard liquor," with its lower tax rate.

As she left the room, Mrs. Werner flushed with anger, in contrast through an Orange county court room for the seventh time in county's history, as the 24-year-old Mexican youth who beat his 17-year-old wife to death with an auto jack, stood to hear his doom sealed.

He received sentence without emotion, stolid as he had been throughout his trial, and was promptly hustled back to the county jail by two husky deputy sheriffs.

The judge had ordered him delivered to the warden at San Quentin within 10 days, and had at the same time, ordered all records of the case forwarded to the state supreme court, in compliance with new law making appeals automatic in cases involving the death penalty.

Sentence Not Final Today's sentence will not be final. When the supreme court renders its ruling, it will be necessary to resentence Valenzuela, even though the judgment is affirmed.

Based upon past history of murder cases in this county, the chance appeared to be even that Valenzuela would never stand before a jury again.

F.D.R. ATTACKS MONOPOLIES IN TEXAS ADDRESS

DALLAS, Tex., June 12.—(UP)—President Roosevelt today bluntly warned that unless monopoly was curbed, the United States faced the prospect of becoming a nation of boarding houses instead of a nation of homes.

The chief executive attacked concentrated wealth, and pledged protection to small business and labor.

"The net result of monopoly, the net result of economic and financial control in the hands of the few, has meant ownership of labor as a commodity," he said. "If labor is to be a commodity in the United States, in the final analysis it means we shall become a nation of boarding houses instead of a nation of homes."

"If our people ever submit to that, they will have said 'goodbye' to their historic freedom. Men do not fight for boarding houses. They will fight for their homes."

RENO GAMBLER DIES FROM HEART ATTACK

RENO, Nev., June 12.—(UP)—Henry O. "Tex" Hall 53, veteran Reno gambler convicted last year of conspiracy to harbor the late George "Baby Face" Nelson, Chicago gangster, during his visits to Nevada, dropped dead during breakfast at his home today.

LANDON'S RUNNING MATE

Col. Frank Knox, Chicago newspaper publisher, nominated today as the Republican candidate for vice-president in closing session of party convention at Cleveland, Ohio. Nomination of Knox was by unanimous vote of the 1003 delegates.

MEXICAN IS SEVENTH MAN TO RECEIVE DEATH PENALTY

By GEORGE HART Natividad Valenzuela, youthful wife-slayer, today was sentenced by Superior Judge James L. Allen to be hanged at San Quentin on Friday, August 28.

"... by the neck until you are dead..." The grim judgment sounded upon the gallows to expiate his crime.

Of the six preceding murderers sentenced to death, only two were actually executed, while a third died in jail while awaiting the rope. Three others evaded the gallows on appeal and escaped with life sentences.

Lawyers who observed the Valenzuela trial, however, say they see no chance for the verdict and sentence to be upset in the higher tribunal. They point out that the defense was favored at every turn of the case in court rulings on evidence, and in instructions given the jury. There is no error in the record and ample evidence to support the verdict, their opinion.

Only two men, a Negro and a Mexican, have been sent to the gallows from this county. By a curious coincidence they were sentenced by the same judge, and on the same day of the year, two years apart.

Negro First To Die Mose Gibson, the Negro who slew Roy Trapp, Buena Park rancher, with an axe, was sentenced to hang today.

MERRIAM PROMISES TO SUPPORT LANDON

SACRAMENTO, Cal., June 12.—(UP)—Gov. Frank E. Merriam, who supported the Landon-for-President movement after abandoning thought of entering the G. O. P. race himself, wired congratulations to the Kansas governor last night.

"Congratulations and best wishes for your success," he told Gov. Alf M. Landon. "In November the people will generously ratify the work of the convention. Be assured my hearty support."

FLOOR BOOM NOMINATES CHICAGOAN

Vandenberg Refuses To Be Candidate Withdraws Name From Parley

Complete text of the Republican party's 1936 platform will be found on Page 6 of this issue.

PUBLIC HALL, CLEVELAND, June 12.—(UP)—The Republican national convention picked Frank Knox of Chicago today as running-mate to Gov. Alf M. Landon of Kansas in the 1936 presidential campaign.

Knox was nominated by the unanimous ballot of the 1003 delegates.

A floor boom swept Knox into the vice presidential nomination when Sen. Arthur H. Vandenberg of Michigan told the convention he would not take the No. 2 position. By the same unanimous withdrawal of all other candidates which preceded Landon's nomination, Knox won the vice presidential honor.

Wild Confusion Selection of Knox capped a morning of wide confusion on the convention floor and hectic behind-the-scenes conferences. These back-stage maneuvers were devoted to frantic efforts of the Landon managers to induce Vandenberg to reconsider his oft-announced determination not to run for vice-president.

The sudden turn of the convention broke unexpectedly after last night's session unanimously ratified a 1936 platform and Landon's nomination for presidency. Landon was nominated after telegraphically presenting a personal expansion of the convention planks on labor, money and civil service—an expansion which cast once more over the convention the shadow of a possible bolt by Sen. William E. Borah.

A few minutes before the convention was convened today—and long after the hour set for meeting—these efforts finally were dropped.

Race Wide Open John D. M. Hamilton, Landon manager, said:

"The race is wide open." Permanent Chairman Bertrand H. Snell of New York called the delegates to order and with most of them still unaware of developments ordered an immediate call of the roll for vice presidential nominations.

Delegates still were expecting that Vandenberg would yield and allow himself to be drafted. A floor boom was underway for Knox but largely contingent upon Vandenberg's withdrawal.

NEW CHARTER ENDS SOVIET DICTATORSHIP

MOSCOW, June 12.—(UP)—Russians, for 18½ years under a steel dictatorship, were handed a new charter of government today—a constitution which marks a decisive step in the history of the world's first Communist Republic.

It provides for universal suffrage, for the secret ballot, for a supreme soviet elected by the people. It provides for freedom of press and speech, for secrecy of mails, for the right of all to vote, regardless of past activities.

The new constitution was approved by the presidium of the central executive committee—that is, by the presidents of the soviet socialist republics which comprise the union.

An all-union congress of soviets, representing every part of the country, was called for Nov. 26 to discuss the new constitution.

The constitution will bring no basic change in the Russian concept of government, but it does mean the leaders who have struggled since the Revolution of 1917 to solidify their rule in vast Russia feel the time has come to make a long step forward.

The vote will be given to all men and women of 18 years or more. There will be equal rights for men and women.

Oklahoman Slays 14-Year-Old Wife

YUKON, Okla., June 12.—(UP)—Irene Williams, 14-year-old wife of Frank Williams, 25, was stabbed to death at a farm house near here today.

Williams was arrested later. Constable John Alden said he admitted slaying his wife.

"She wouldn't live with me and I made up my mind she wouldn't live with anyone," Alden quoted Williams.

"I'm sorry I killed her," he added. "I'm ready to take my medicine."

LANDON, KNOX SEVENTH MAN NOMINATED AT SENTENCED IN GOP CONCLAVE COUNTY TO DIE

(Continued From Page 1)

Minor candidates were presented in impromptu speeches amid jeers of delegates who were unable to determine from the lengthy references to the "man who" and boyhood hardships just what candidate was being offered.

Then came the stunning climax.

Vandenberg Withdraws

Michigan announced it would cast its 38 votes for Vandenberg. Delegates cheered. But Snell raised his gavel and snatched hard for silence.

They have been asked to read the following note from Sen. Vandenberg, he announced. A hush fell over the vast, barn-like structure where bleary-eyed delegates groped in the searing glare of the klieg lights to make out what was going on.

The note was brief. Vandenberg simply announced:

"If my name is proposed for vice-president please say to the convention that I wish it to be withdrawn. This is conclusive."

He said he felt he could be of more service on the floor of the Senate "during the next Landon administration" and offered his full and enthusiastic support to the Kansas governor in the campaign.

The rest of the roll was quickly run through. There were no nominations. Only the names of Knox, Gov. Harry Nice of Maryland, Arthur H. Little of New York and former Sen. Walter E. Edge of New Jersey were before the convention.

And before the roll had been called, each of these candidates withdrew in favor of the Chicago withdrawal.

LANDON GOES TO WORK AS USUAL

TOPEKA, Kans., June 12.—(UP)—Gov. Alf M. Landon got down to work a couple of minutes early today, grinning at a great mound of congratulatory telegrams on his desk, called newspaper men in for his first press conference as Republican nominee for president, said he felt "fine," and announced he would leave plans for the immediate future up to the national committee.

"I will not anticipate the activities of the national committee," he said in response to questions about formal notification of his nomination and plans for the campaign.

"All that awaits the committee's action when it meets after the convention."

The governor arose at his usual hour, shortly after 7 a. m., and walked to work instead of riding to the state house as he customarily does. He appeared a little tired after last night's celebration here. His voice was hoarse.

Landon passed off allusions to the telegrams on his desk with a grin and no comment, but he did say one was from Herbert C. Hoover.

Hoover's telegram, sent from New York, said:

"I send you my heartiest congratulations. You have a great task for the American people. I pray you will have divine help."

Transamerica Buys Control of Bank

KEN Murray SAYS:

NEW YORK, June 12.—Looks like the Chinese Dragon is starting to snort fire again, since two high generals of the Canton government admit that their armies are preparing to march against the Japanese invaders. Well, that's news! Heretofore, every time Japan made up her mind, she went through China like a steamroller through a stop-light.

Judging from her activities in the past few years, apparently a treaty is no more sacred to a Jap than a campaign promise is to a New Dealer.

Sounds to me like a strong case of superiority complex. The Mikado's generals believe that China is God's gift to the Japanese.

Oh course, I don't know what system the Nipponese use when they take a large parcel of land from China without producing a deed of some sort. Most of us can't even get a bundle of our own laundry from a Chinaman without a ticket.

URGE RECALL OF MEXICAN CONSUL HILL

(Continued From Page 1)

far as he knew, no request for establishing such board had yet reached the packing house leaders.

Last year, Consul Hill, who has appeared here to keep in close touch with the situation, said that the arbitration board was successfully instituted in connection with the vegetable workers' strike "and was so eminently successful for both parties that the board is still functioning and there has been no further trouble."

Question Agitators

Although numerous Mexicans, who have been urging pickers to leave their jobs and who have been described as "agitators," have been taken into custody at Anaheim and elsewhere, for questioning, no actual arrests have yet been made in Orange county, the sheriff stated. Reports from the Whittier and Norwalk districts of Los Angeles county late yesterday, said strikers halted two trucks and dumped the cargoes into ditches, with injury to no one. Thirty deputies from the Norwalk sub-station were detailed to convoy trucks of oranges to the packing plants. The sheriff said no violence has yet occurred in this county.

Union officials said approximately 2500 men were on strike today but Strathman's report said the number "would not quite reach 2000."

"In the southern part of the county, conditions are improved today, with few men on strike and with the packing houses suffering nothing to speak of," Strathman said. "Some houses there are working full forces. In the Anaheim area, some houses are in better condition and others a little worse, while in Placentia, Fullerton, Olive and La Habra areas, there is more of a walk-out today, with some 50 per cent crews still on the job."

Employ Collegians

From Palencia high school and Fullerton junior college, scores of youths went out to the orchards to take the places of the strikers. Other schools are being contacted throughout the county "to save the citrus crop here in spite of anything which may happen."

Packing house men were offering jobs throughout the county with the Quality Fruit company of Fullerton preparing today to import from 100 to 200 Filipinos from northern counties.

"We expect to hire as many men as necessary to fill vacancies until such time as the regular men return to work, and if they do not, then to hire others for permanent employment," Strathman declared.

"I have divided the county into three sections, with subdivisions, for efficient patrolling and by this method, we have made more than 30 investigations during the past 24 hours, including the furnishing of numerous escorts of workers to and from the orchards and numerous escorts for fruit hauling trucks," Sheriff Jackson stated. "C. W. Jones, radio technician from this office, has installed two movable radio sets in two cars by which direct conversation may be given to the sheriff's office. Thus we

are able to send these cars through the county and, by relay, direct the officers in receiving-set patrol cars to points where they may be needed."

"Night Riders" Active

The sheriff declared numerous "night-riders" were reported active last night, going to the home of working Mexican pickers and warning them that, if they did not quit, they would be beaten up. The "night-riders" have included Mexicans, whites and Filipinos he said he was informed.

"The ranchers are greatly aroused and are going to save their crops in spite of any threats," the sheriff said they told him. "We have not actually seen any known radicals here during the past two days, but the threat methods which are apparently being used indicate the 'night-riders' have radical tendencies."

All packing houses were reported under guard last night and in several orchards, including that of the Tuffrey ranch on Palm avenue just north of Placentia, men patrolled, armed with shotguns.

The Withers Packing house officials notified Anaheim police that several Mexicans were patrolling South Clementine street, Anaheim, last night and this morning, urging pickers not to go to work. Among those picked up and taken in for questioning were Louis Cabrillo, John L. Gomez, Daniel Carrea, Pastor Quintiro and Manuel Hurtado. They were released after questioning. Edward Mills, Anaheim Community Growers, asked protection as he reported Antonio Villareal, Anaheim, "agitator," Villareal was said to have had in his possession, minutes of Labor Union No. 3, but officers who examined them, said nothing in them pertained to communism or strike activities.

Will Deport Aliens

Immigration officials are coming to this county today, it was said, to confer with Officer Franklin Davis, and any Mexican strikers who are found not legally in this country will be deported. A strikers' meeting, conducted in Mexican, at Orange today, was "awfully peaceful," officers who covered it said.

In explaining demands of the strikers, Lucas Lucio, local consul representative, said today the chief idea was to eliminate the "rackets" being practiced against the pickers. "Rackets," he said, "include demands of packing house foremen who required payment of transportation by the pickers whether the pickers were transported or walked to work, and the bonus plan by which some Mexicans were allegedly fired from their jobs to avoid bonus payments to them."

"The strikers themselves are not agitators but have remained quietly at home and will continue to do so," he said. "Yesterday, pickers living on company property were ordered from their homes but refused to vacate. They are not radicals but merely Mexicans who want a square deal."

Part of the union's request is for increase in wages from \$3 to \$3.50 for picking of 30 boxes of fruit and change in price per box over 30, from 51-2 cents to 7 cents.

TROOP MOVEMENTS IN CHINA HALTED

NANKING, China, June 12.—(UP)—President Lin Sen of the central Chinese government received a telegram today from Marshal Chen Chi-Tang, Cantonese leader, promising an immediate halt in the march northward of his troops. Chen said the Cantonese military movements were due solely to anti-Japanese opinion in southwestern China, and therefore he was glad to suspend the advance of his men in order to form a united front with the central government.

BAR WERNERS FROM LIQUOR GRAFT PROBE

(Continued From Page 1)

to her smiling demeanor an hour earlier when she listened to a communication from Governor Frank F. Merriam, pledging his cooperation to the committee and assuring it adequate funds to finance the hearing to completion.

"It's an outrage," exploded "Queen Helen."

She and her husband were ordered to return tomorrow morning and Baggett and Hendrixson later today.

Before questioning Brown, the committee tossed its first bombshell of evidence, reading a letter from State Controller Ray L. Riley which stated that the state board of equalization, defying a district court of appeals ruling, refused to rescind its wine classification of the jinkricky drink. The court of appeals had held that the concoction should be classified as "hard liquor."

Court Definition

Riley stated that the court defined the concoction as a mixture of alcohol, sugar, wine and water with the alcoholic content three times that of wine. The controller reported he submitted the decision to the board last January.

"I was unable to secure the recission of the board of the classification of jinkricky as wine," his letter said.

He pointed out that the board's refusal brought about a two-fold loss to the state, one by "defrauding" the state of the higher hard liquor licensing fee and the other by depriving the state of the excise tax of 80 cents a gallon imposed upon hard liquor.

Riley's letter was addressed to Attorney General U. S. Webb in asking him to bring recovery suits against the Jinkricky company of Hollywood, the Purdy Products company, the Home Brand Bottling company and the Tux winery. The suits Riley requested involved \$23,576 alleged lost to the four concerns.

atTURNER'S Spare Dimes and Nickels give you the new KELVINATOR

with...Visible COLD
Visible ECONOMY and
Visible PROTECTION

Today we recommend that every owner of an automatic refrigerator learn about the new 1936 Kelvinator. It has three outstanding, vital, fundamental things that the buyer of a refrigerator has always wanted.

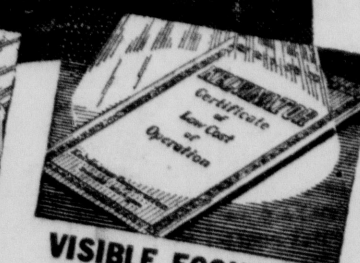

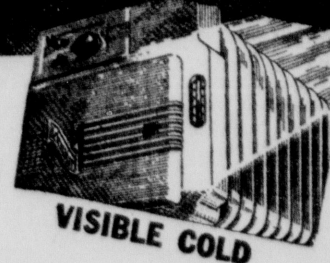

Visible Cold: safe temperatures in the food compartment, proved by a Built-in Thermometer, so there can be no doubt about how cold it is.

Visible Economy: the 1936 Kelvinator uses from one-third to one-half as much current as many refrigerators now in use, as shown in advance by a signed Certificate of Low Cost of Operation.

Visible Protection: a 5-year Protection Plan, written and signed by the oldest company in the industry.

The new Kelvinator is the only refrigerator that gives you flexible rubber grids in all ice trays. It offers you a wealth of conveniences such as automatic defrosting switch, interior electric light, and many others.

We want you to see the 1936 Kelvinator whether you now have an electric refrigerator or not, and let us tell you how you can have one in your home for as little as 16c a day. Come in tomorrow

DEATH NOTICES

A WORD OF COMFORT

There is an infectious quality in many diseases, in all vice and in most doubts. Health likewise is contagious and strength, goodness and faith are communicable. Because you are weak and trembling, associate yourself with those who are strong and virile and who live by faith. Drink in vitality, courage and strength until they become part of your nature and you too will radiate them to others. Cease dwelling disconsolately upon your sorrow. Seek for power which you may transmit to others who know less about life than you have learned.

TRUCK DRIVERS PLAN TO FORM COUNTY UNION

Plans for establishment of a local union of chauffeurs, truck drivers and helpers in Orange county, with headquarters in Santa Ana, were completed last night at Carpenter's hall, 402 West Fourth street, under leadership of Alvin H. Bauer, general organizer for the American Federation of Labor. Election and installation of officers will be held Wednesday, June 24, at the same meeting place.

Between 85 and 100 prospective members were present last night to consider the organization, Bauer said, and all endorsed the program. Seventy-five already have signed intention of becoming charter members, he said.

Among other speakers were Norris Stone, Santa Ana organizer, and from San Pedro, local union 692, President George Schultz, Secretary-Treasurer J. J. Bardwell and Business Agent R. J. Seltzer.

A vote of thanks was extended General Organizer Bauer following last night's meeting.

STATE READY FOR COSTA MESA WORK

COSTA MESA, June 12.—Work on the improvement of the old railway right-of-way in the business district of Costa Mesa will be started at once, according to word from S. V. Cortelyou, head of the state highway department, to Charles TeWinkle, head of the local chamber of commerce street committee. Cortelyou and several associates met recently with the street committee in a discussion of the problem.

The improvements will include, according to the message from Cortelyou, opening of grade crossings across the railway roadbed at Eighteenth street and at Broadway, placing a curb around a five-foot strip of ground separating Newport boulevard from an auto parking lot between Harbor boulevard and Broadway and leveling and macadamizing of the auto parking space. The work will be done entirely by the state, it was stated, and state engineers will be sent to the location immediately to take measurements and make plans.

Cortelyou recommended that the beautification program, as going on at present under the supervision of Carl W. Spencer between the Harbor boulevard and Eighteenth street intersections on the roadbed, be continued.

You can "treat 'em rough." That's what the young set likes about Barbizons. Short of actually scrubbing on the washboard or soaking in boiling water, you can give them any amount of wear and washing. Because Barbizon fabrics are pure dye all pure silks: no metallic weighting to dissolve in washing and leave a thin, weakened texture. No frail laces for the iron to tear. The shoulder straps won't pop and the seams won't open. So, whether she's 12 or 20, give your graduate Barbizon slips. She'll love them and they cost so little.

REV. KELLEY IN TALK BEFORE FATHERS, SONS

"When Admiral Byrd took his late expedition to the Antarctic region, months were spent in preparation and in gathering of materials for the safety and comfort of the men as well as for their scientific studies. The success of the expedition depended in large measure on the adequacy of the preparatory work. Just so, in preparing to make our homes happy and successful, it takes a vast amount of planning and work, and in this work both the parents and the children must cooperate," said Rev. A. E. Kelley, addressing the father and son dinner at the Y. M. C. A. last night.

"Parents and their children, fathers and their sons, must share the responsibility of making the home what it ought to be. They must join as partners in home making. Each must supply his share of the essentials for a good home. The father has his obligation to provide material things, food, shelter and the comforts of life, but his responsibility does not end when he has done this. He has the further task or privilege of helping to provide the right atmosphere of confidence, culture, inspiration and good fellowship which alone can make the home the delightful place that it is intended to be."

The occasion was the final dinner of the series of father and son events which have been carried on throughout the season. It attracted nearly 100 boys and men for a splendid program of inspiration and entertainment. Delightful music was furnished by the boys' glee club of Lathrop Junior High school, directed by Daniel Stover. Glenn Layton did a fine piece of work as toastmaster and Jack Dutton, representing the Hi-Y Club, spoke from the standpoint of youth as to the manner in which boys and men must work together to build manhood.

SCHILLING LEASES STROCK BUILDING

Announcement was made today of the leasing of the former Strock Jewelry store building, 112 East Fourth street, to Robert Schilling, Santa Ana shoe merchant, whose present location, 410-412 North Main street, will be occupied in the near future by the Woolworth annex.

The lease which was made through Ray Goodell is for 10 years. The building, which has been remodeled, is the property of Mrs. Martha Medlock and Mrs. Velda Gustlin. Construction of a new store front will cost approximately \$2000.

Police News

City police called I. H. Pennington shortly after midnight last night, to shut off the burglar alarm which sounded in the building of the Quality Cleaners and Dyers, 1233 South Main street. No burglars were discovered.

Thieves stole a winding mirror and radiator cap from the automobile of William Gibson, Finley hotel, last night, he reported to city police. The car was left on a parking lot over night, he said.

UTT SEEKING NOMINATION ON BOURBON SLATE

"Everybody's Doing It" seems to be the theme song for political aspirants in this district.

The whole thing, of course, started when Congressman Sam Collins walked away with the nomination two years ago on the Democratic as well as the Republican ticket.

Today, Republican Assemblyman James Utt, 74th district, announced that he has filed papers for nomination on the Democratic slate. His only opponent on the Bourbon ticket so far announced is Clyde Watson, former mayor of Orange. There are no other nominations on the Republican ticket so far.

In his announcement of intention to file on the Democratic ticket, Utt explained that in his opinion the administration of the state government is a non-partisan function.

"In dealing with our school system, our penal psychopathic institution and our tax system, party politics should not be considered," Utt said. "In my past two sessions, I can recall scarcely an issue that was even debated upon along party lines."

"I feel that I have represented Orange county to its best possible interest, and would like to continue to do so. I do not wish my Democratic friends to feel that I am injecting myself into their primaries for the purpose of embarrassing them in any manner whatsoever, but trust that they may feel more free to lend advice and to make requests when I am serving this district."

BREAKFAST OF HIGH SCHOOL SENIORS HELD

More than 200 seniors of the Santa Ana high school were in attendance at their annual breakfast at the Green Cat cafe yesterday.

Humor was the theme of the morning with seriousness absolutely ruled out. The tables were decorated with pansies and small cartoon graduates were used as place-cards with the menu printed on the diploma. Cardboard drawings of various colleges of the Pacific coast were situated at different locations on the tables.

With Audrey Granas acting as toastmistress, the program consisted of short remarks by members of the class and guests. Jean Munro spoke on "How I Got On The Hockey Team, or Love in Bloomers"; Merle Morris chose "My First 'F'"; Ralph Fuller, "When I Was on the 'B' Football Team"; and Robert Speed, "My First Demerit." Frank Val Jean McCoy, instructor, made a few remarks on what the teacher thinks of seniors.

The class prophecy was acted out in the form of a radio broadcast in which Frank was and Larry Stump, juniors, took part. Principal Lynn H. Crawford, who is also class adviser, spoke a few words. Superintendent Frank Henderson was a special guest.

Members of the breakfast committee consisted of Mary Henderson, chairman; Ralph Fuller, Betty West, La Vonne Franson, Ruth Franson and Edward Velarde.

On an average, there are 3½ pounds of salt to every 100 pounds of ocean water.

Man Accused of Bigamy Arrested By Oakland Police

Wanted in Orange county on a complaint charging bigamy, John L. Kelly, 34, was under arrest in Oakland today. Deputy John Ryan and Special Deputy Earl Moore expect to leave for Oakland tonight to return Kelly to the Orange county jail.

It is charged that Kelly, already married, brought Miss Juliet Kasso of 2706 Winter street, Los Angeles, here last August 21, and married her. She signed the complaint, charging him with bigamy.

DR. TOWNSEND MAY REBEL ON SHEPPARD VOTE

Whether the Townsend organization will permit the endorsement of H. S. Sheppard, San Bernardino, as a Townsend candidate for congress in the Nineteenth district, to stand was reported doubtful in local political circles today, following the endorsement voted by the Townsend convention yesterday at Riverside.

Steam-roller tactics, and refusal of permission to read endorsements of James L. Davis, Orange county assistant district attorney, from Dr. F. E. Townsend, head of the movement, and from Sheridan Downey, Dr. Townsend's lieutenant, were said to have thrown Orange county Townsend ranks into dissension with the result of the convention. Sheppard received practically no support from Orange county, it was said.

He was endorsed on the first ballot in the convention, with 340 votes, five more than necessary. There were 669 votes in the convention. The Sheppard forces, it was said, succeeded in blocking permission to A. P. Nelson, of Orange county, to read a personal letter from Dr. Townsend endorsing Davis and a wire from Sheridan Downey, urging the convention to endorse Davis.

The names of Davis, Harry Riley, of Anaheim, and J. H. Walsh, of Costa Mesa, were before the convention for endorsement.

Tractor Crushes Man Against Car

A recalcitrant caterpillar tractor which went "hay-wire" yesterday while G. O. Floyd, 622 North Harvard, Fullerton, was operating it in a parking yard here, crushed Murray Foss, 643 North Rose street, against another tractor, against investigation of Officers Harry Plank and Charles W. Wolford. Foss was badly bruised but suffered no broken bones, investigation showed.

EXPLOSION FRACTURES LEG

Five-year-old George Pickett, Jr. of 2003 Cypress street, Santa Ana, suffered a fractured right leg and lacerations, and was given a 500-gallon bath of oil, yesterday as an oil tank exploded and fell upon him, according to hospital reports. The tot was being treated at Orange county hospital today.

MERCHANTS OF CITY PLANNING RETAIL FORUM

Plans for the organization of a Merchants' Forum were completed today at a meeting of the retail board of the Santa Ana Chamber of Commerce under the leadership of Ivie Stein. The program calls for a meeting of merchants at chamber headquarters each Friday at 8:45 a. m.

The forum will be in the nature of a round-table discussion concerning merchandising problems facing local merchants. Business men who are not members of the retail division of the chamber of commerce are invited to attend the weekly meetings and enter into the discussions.

At the meeting today, plans for entering into a closer cooperation with other county communities were discussed. It was pointed out that in the past Santa Ana has failed to cooperate completely with other cities in their various projects, and it was believed that steps should be taken by local merchants and city officials to insure closer contact with outside communities in the future.

Plans for summer and fall sales events were tentatively outlined by the merchants today. Those present agreed to keep stores open on the night of July 3, inasmuch as Saturday will be a holiday.

"FURY" OPENS AT FOX WEST COAST FOR WEEK'S RUN

"Fury," starring Silvia Sydney and Spencer Tracy opened at the Fox West Coast theater for a solid week's run today. A second feature, "The First Baby," also is shown on the same program along with an animated cartoon and a news reel.

"Fury" is said to be one of the outstanding pictures of the year and deals with mob psychology and brings about some of the best acting the two stars have ever exhibited.

"The First Baby" with Johnny Downs and Shirley Dean is a social drama which is something novel in theme. The picture sets forth the problem of a mother-in-law in the home and the attendant situations that arise. The picture is filled with pathos and comedy and the entire bill is one that should be appealing to the entire family.

TOWNSEND CLUBS

Club No. 7 will meet tonight at 6 o'clock in the Orange Avenue church, corner of Orange Avenue and McFadden street. A dinner will be served at 6, the proceeds to go to a fund for the purpose of sending a delegate to the Townsend National convention in Cleveland. Reports on the congressional district meeting at Riverside yesterday will be a feature of the meeting.

RANDOLPH BELL REJOINS STARS SECOND HALF

Randolph Bell, one of the greatest outfielders in the softball game, will rejoin the Santa Ana All-Stars for the second half series of the National Night league. The Register learned today.

Bell, now field manager for the Olive club, will retire from that position and rejoin Santa Ana for the second half, it was announced. It is likely that Bell will play in left field for the Stars, inasmuch as Tom Denney will be gone part of the time on his vacation.

Bell started night ball in Santa Ana with the Stars in 1926. He

then went to Anaheim, and after that was manager at Fullerton. From Fullerton he went to Huntington Beach as a player, and for the past two years has been at Olive.

WALNUT GROWERS TO RECEIVE MILLIONS

LOS ANGELES, June 12.—(UP)—Members of the California Walnut Growers association will receive approximately \$2,000,000 in excess of the 1934 crop settlement, Carlyle Thorpe, general manager, predicted today in presenting the 1935 crop report to members of the association.

Thorpe also predicted a higher return per pound than on the previous crop. He said members already have received nearly \$7,000,000, with \$2,000,000 still expected by early fall.

OCCUPANTS ESCAPE IN AUTO ACCIDENTS

Two traffic accidents occurring yesterday afternoon resulted only in damage to vehicles, according to California highway patrol reports. Following a crash at Los Angeles and Sycamore streets, Anaheim, at 6 p. m. yesterday, involving cars driven by Elsie N. Frazier, 21, Route 3, Box 113, Anaheim, and Clayton H. Woodbury, 29, of 621 South Helena street, Anaheim, Woodbury was arrested on a charge of reckless driving, records show. At Valencia and Golden avenues, two miles west of Yorba Linda, a car operated by Robert E. Elliott, 17, Placentia, and a truck operated by Clifford Lowe, 29, Montebello, collided about 3 p. m. yesterday.

SOUND CURRENCY, CESSATION OF UNCONTROLLED SPENDING PLEDGED IN PARTY PROGRAM

CLEVELAND, June 11.—Following is the text of the party's platform for the 1936 campaign which was approved last night by the Republican National Convention in session here.

America is in peril. The welfare of American men and women and the future of our youth are at stake. We dedicate ourselves to the preservation of their political liberty, their individual opportunity and their character as free citizens, which today for the first time are threatened by government itself.

For three long years the New Deal administration has dishonored American tradition and flagrantly betrayed the pledges upon which the Democratic party sought and received public support.

The powers of Congress have been usurped by the President. The integrity and authority of the Supreme Court have been flouted.

Liberties Violated
The rights and liberties of American citizens have been violated. Regulated monopoly has displaced free enterprise.

The New Deal administration constantly seeks to usurp the rights reserved to the State and to the people.

It has insisted on the passage of laws contrary to the Constitution. It has intimidated witnesses and interfered with the right of petition.

It has dishonored our country by repudiating its most sacred obligations.

Frightful Waste
It has been guilty of frightful waste and extravagance, using public funds for partisan political purposes.

It has promoted investigations to harass and intimidate American citizens, at the same time denying investigations into its own improper expenditures.

It has created a vast multitude of new offices, filled them with its favorites, set up a centralized bureaucracy and sent out swarms of inspectors to harass our people.

It has bred fear and hesitation in commerce and industry, thus discouraging new enterprises, preventing employment and prolonging the depression.

Secret Tariff Pacts
It secretly has made tariff agreements with our foreign competitors flooding our markets with foreign commodities.

It has coerced and intimidated voters by withholding relief to those opposing its tyrannical policies.

It has destroyed the morale of many of our people and made them dependent upon government. Appeals to passion and class prejudice have replaced reason and tolerance.

To a free people, these actions are insufferable. This campaign cannot be waged on the traditional differences between the Republican and Democratic parties. The responsibility of this election transcends all previous political divisions. We invite all Americans, irrespective of party, to join us in defense of American institutions.

Party Pledges
We pledge ourselves:
(1) To maintain the American system of constitutional and local self-government, and to resist all attempts to impair the authority of the Supreme Court of the United States, the final protector of the rights of our citizens against the arbitrary encroachments of the legislative and executive branches of government. There can be no individual liberty without an independent judiciary.

(2) To preserve the American system of free enterprise, private competition and equality of opportunity, and to seek its constant betterment in the interests of all.

Re-employment
The only permanent solution of the unemployment problem is the absorption of the unemployed by industry and agriculture. To that end, we advocate:
Removal of restrictions on production.

Abandonment of all New Deal policies that raise production costs, increase the cost of living, and thereby restrict buying, reduce volume and prevent re-employment.

Encouragement instead of hindrance of legitimate business.

Withdrawal of government from competition with private pay rolls.

Elimination of unnecessary and hampering regulations.

Adoption of such other policies as will furnish a chance for individual enterprise, industrial expansion and the restoration of jobs.

Relief
The necessities of life must be provided for the needy and hope must be restored pending recovery. The administration of relief is a major failure of the New Deal. It has been faithless to those who most deserve our sympathy. To end confusion, partisanship, waste and incompetence, we pledge:

(1) The return of responsibility for relief administration to non-political local agencies familiar with community problems.

Grants to States
(2) Federal grants-in-aid to the states and territories while the need exists, upon compliance with these conditions: (a) A fair proportion of the total relief burden to be provided from the revenues of states and local governments.

(b) All engaged in relief administration to be selected on the basis of merit and fitness; (c) Adequate provision to be made for the encouragement of those persons who are trying to become self-supporting.

(3) Undertaking of Federal public works only on their merits and separate from the administration of relief.

(4) A prompt determination of the facts concerning relief and unemployment.

Security
Real security will be possible only when our productive capacity is sufficient to furnish a decent standard of living for all American families and to provide a surplus

which will depress American farm prices.

(7) To provide effective quarantine against imported livestock, dairy and other farm products from countries which do not impose health and sanitary regulations fully equal to those required of our own producers.

(8) To provide for ample farm credit at rates as low as those enjoyed by other industries, including commodity and livestock loans, and preference in land loans to the farmer acquiring or refinancing a farm as a home.

End Policies
(9) To provide for decentralized non-partisan control of the Farm Credit Administration and the election by national farm loan associations of at least one-half of each board of directors of the Federal land banks, and thereby remove these institutions from politics.

(10) To provide in the case of agricultural products of which there are exportable surpluses, the payment of reasonable benefits upon the domestically consumed portion of such crops in order to make the tariff effective. These payments are to be limited to the production level of the family type farm.

Aid Marketing
(11) To encourage and further develop co-operative marketing.

(12) To furnish government assistance in disposing of surpluses in foreign trade by bargaining for foreign markets selectively by countries both as to exports and imports. We strenuously oppose so-called reciprocal treaties which trade off the American farmer.

(13) To give every reasonable assistance to producers in areas suffering from temporary disaster, so that they may regain and maintain a self-supporting status.

Tariff
Nearly 60 per cent of all imports into the United States are now free of duty. The other 40 per cent of imports compete directly with the product of our industry. We would keep on the free list all products not grown or produced in the United States in commercial quantities. As to all commodities that commercially compete with our farms, our forests, our mines, our fisheries, our oil wells, our labor and our industries, sufficient protection should be maintained at all times to defend the American farmer and the American wage earner from the destructive competition of foreign governments and the imports from low-wage and depreciated-currency countries.

Repeal Present Law
We will repeal the present reciprocal trade agreement law. It is futile and dangerous. Its effect on agriculture and industry has been destructive. Its continuation would work to the detriment of the wage earner and the farmer.

We will restore the principle of the flexible tariff in order to meet changing economic conditions here and abroad and broaden by careful definition the powers of the tariff commission in order to extend this policy along nonpartisan lines.

We will adjust tariffs with a view to promoting international trade, the stabilization of currencies, and the attainment of a proper balance between agriculture and industry.

We condemn the secret negotiation of reciprocal trade treaties

without public hearing or legislative approval.

Monopolies
A private monopoly is indefensible and intolerable. It menaces and, if continued, will utterly destroy constitutional government and the liberty of the citizen.

We favor the vigorous enforcement of the criminal laws, as well as the civil laws, against monopolies and trusts and their officials, and we demand the enactment of such additional legislation as is necessary to make it impossible for private monopoly to exist in the United States.

We will employ the full powers of the government to the end that monopoly shall be eliminated and that free enterprise shall be fully restored and maintained.

Business Policy
We recognize the existence of a field within which governmental regulation is desirable and salutary. The authority to regulate should be vested in an independent tribunal acting under clear and specific laws establishing definite standards.

Their determinations on law and facts should be subject to review by the courts. We favor Federal regulation, within the Constitution, of the marketing of securities to protect investors. We favor also Federal regulation of the interstate activities of public utilities.

Civil Service
Under the New Deal, official authority has been given to inexperienced and incompetent persons. This civil service has been sacrificed to create a national political machine. As a result the federal government has never presented such a picture of confusion and inefficiency.

We pledge ourselves to the merit system, virtually destroyed by New Deal spoilsmen. It should be restored, improved and extended.

We will provide such conditions as offer an attractive, permanent career in government service to young men and women of ability, irrespective of party affiliations.

Finance
The New Deal administration has been characterized by shameful waste, and general financial irresponsibility. It has piled deficit upon deficit. It threatens national bankruptcy and the destruction through inflation of insurance policies and savings bank deposits.

We pledge ourselves:
Stop the folly of uncontrolled spending.

Balance the budget—not by increasing taxes but by cutting expenditures, drastically and immediately.

Revise the federal tax system and co-ordinate it with state and local tax systems.

Use the taxing power for raising revenue and not for punitive or political purposes.

We advocate a sound currency to be preserved at all hazards.

The first requisite to a sound and stable currency is a balanced budget.

We oppose further devaluation of the dollar.

We will restore to the congress the authority lodged with it by the constitution to coin money and regulate the value thereof by re-pealing all the laws delegating

this authority to the executive.

We will co-operate with other countries toward stabilization of currencies as soon as we can do so with due regard for our national interests and as soon as other nations have sufficient stability to justify such action.

Foreign Affairs
We pledge ourselves to promote and maintain peace by all honorable means not leading to foreign alliances or political commitments.

Obedient to the traditional foreign policy of America and to the repeatedly expressed will of the American people, we pledge that America shall not become a member of the League of Nations nor of the world court, nor shall America take on any entangling alliances in foreign affairs.

Promote Peace
We shall promote, as the best means of securing and maintaining peace by the pacific settlement of disputes, the great cause of international arbitration through the establishment of free, independent tribunals, which shall determine such disputes in accordance with law, equity and justice.

Defense
We favor an army and navy, including air forces, adequate for our national defense.

We will co-operate with other nations in the limitation of armaments and control of traffic in arms.

Bill of Rights
We pledge ourselves to preserve, protect and defend, against all limitation and threat, freedom of religion, speech, press and radio; and the right of assembly and petition and immunity from unreasonable searches and seizures.

We offer the abiding security of a government of laws as against the autocratic perils of a government of men.

Furthermore:
(1) We favor the construction by the federal government of head-water storage basins to prevent floods, subject to the approval of the legislative and executive branches of the government of the states whose lands are concerned.

Protect Colored
(2) We favor equal opportunity for our colored citizens. We pledge our protection of their economic status and personal safety. We will do our best to further their employment in the gainfully occupied life of America, particularly in private industry, agriculture, emergency agencies and the civil service.

We condemn the present New Deal policies which would regiment and ultimately eliminate the colored citizen from the country's productive life, and make him solely a ward of the federal government.

To our Indian population we pledge every effort on the part of the national government to ameliorate living conditions for them.

We pledge continuation of Republican policy of adequate compensation and care for veterans disabled in the service of our country and for their widows, orphans and dependents.

Collect Debts
(5) We shall use every effort to collect the war debt due us from foreign countries amounting to \$12,000,000,000—one-third of our national debt. No effort has been made by the present administration

even to reopen negotiations.

(5) We are opposed to legislation which discriminates against women in federal and state employment.

Conclusion

We assume the obligation and duties imposed upon government by modern conditions. We affirm our unalterable conviction that, in the future as in the past, the fate of the nation will depend, not so much on the wisdom and power of government, as on the character and virtue, self-reliance, industry and thrift of the people and on their willingness to meet the responsibilities essential to the preservation of a free society.

Candidates Pledged

Finally, as our party affirmed in its first platform in 1856: "Believing that the spirit of our institutions as well as the constitution of our country guarantees liberty of conscience and equality of rights among our citizens we oppose all legislation tending to impair them" and "we invite the affiliation and co-operation of the men of all parties, however differing from us in other respects, in support of the principles herein declared."

The acceptance of the nomination tendered by this convention carries with it, as a matter of private honor and public faith, an undertaking by each candidate to be true to the principles and program herein set forth.

Brain Twizzlers

By Prof. J. D. Flint

One lovely spring Sunday in church a man's head bowed gently forward in restful slumber. His indignant wife sitting behind him, rapped him sharply across the back of his neck with a silver pencil which she had in her purse. The man's head jerked convulsively and he slumped down in his seat, dead.

A psychology professor, shortly afterward, speaking to his class about effects upon the human mind, related this story and said that he knew the wife of the man very well. He quoted her as having told him that the man had seen, shortly before his death, a moving picture of the French Revolution and had read several books about it. The wife of the man said her husband had been dreaming of the guillotine when she rapped him on the back of the neck with the metal pencil and the psychological shock killed him. The professor was interrupted by one of his students with a cry of protest as he told this story. What did the student say?

Answer to Yesterday's Twizzler: Fill the thirteen ounce vessel from the large one. Then fill the eleven ounce vessel, leaving two in the thirteen. Fill the five ounce vessel twice into the thirteen thereby getting twelve ounces in one vessel.

SERVICE CLUB HEARS ADDRESS BY PHYSICIAN

ORANGE, June 12.—"Eat less, drink less, rest more, take hot baths and don't worry, if you would avoid high blood pressure," advised Dr. H. A. Johnston, of Anaheim, in speaking before the Rotary club yesterday on "High Blood Pressure." Dr. Johnston used a chart showing the operation of the heart and circulatory system, likening them to a pumping plant and irrigation system. People in general entertain a blood pressure phobia, the physician stated as he stressed the fact that worry increases blood pressure to an unbelievable degree. He told of a man's blood pressure having been increased from a normal at 130 to 230 because of a quarrel with his wife over a small matter. "Medicine has but a transitory effect on blood pressure," said Dr. Johnston. "Statistics prove that blood pressure is not raised by the use of alcohol or tobacco. It has been demonstrated that a theory that eating meat raises blood pressure is without foundation and diet of any sort does not affect it. "High blood pressure is caused by worry or other emotion entering the sympathetic nervous system, that which controls involuntary action. If you are fat and have high blood pressure, eat what you want, but leave the table hungry and you will reduce your weight and blood pressure." Dr. A. J. Nies was program chairman.

ASSURANCE

CLEVELAND, June 12.—Delicate preparations were made for Mr. Hoover's appearance before this convention. The convention leaders wanted him here. They also need him in their coming campaign. They think they cannot win without him.

But they want him in both places as an elder statesman—and not as a candidate.

That is why they sent a man out to see him some time back, to sound him out. Hoover soon caught the unspoken question in his caller's mind, put a friendly hand on his arm and said substantially this: "You don't need to worry about me. Don't let any stampede for me occur in that convention."

SOFT-PEDAL

A few hours before Mr. Hoover's appearance, one of those deep dark rumors was spread through the convention. It undoubtedly originated in the alcoholic inspiration of a delegate, the source from which most convention rumors fly.

This one was a whisper that Landon was not to be nominated. "Watch the New York, Pennsylvania and Ohio delegation." No names were mentioned, but these three delegations were supposed to be prepared to start a Hoover stampede.

The Landon people took steps to stamp out that one right away. Word was passed down the line to loyal delegates to give Hoover a big hand, but not too big.

BARGAINING

The inner trouble of this convention is the same as all of them, only worse. Everybody with one or more votes has been trying to chisel as much of a deal for them as he can.

Blunt ex-Senator David Reed (he was so frank that he talked himself out of his seat in the Senate) let that black cat out of the bag in a typical Reed speech to the Pennsylvania delegation some time back. Mr. Reed told the keynoters they should not let anyone know how they stood, because other delegations did, and those delegations failed to get anything in return for their votes.

Actually his quotes were: "I think we should keep our thoughts to ourselves. One or two delegations, on impulse, have taken a poll and are now utterly neglected in Cleveland."

Note—Twenty-four hours later the Pennsylvania delegates insist-

ed on a poll and showed 65 per cent for Landon.

WHEELING

And to show you the absurd lengths to which the bargaining instinct is sometimes carried, listen to this one:

The most galling personal grievance which Senator Borah has had against Landon concerns Walter Brown the now ousted Ohio committeeman. Personally, Borah attributes most of his Ohio troubles to Brown. If it had not been for Brown, the Idahoan believes he would have far more than five delegates from Ohio.

So, when Brown was set up for re-election here, the Borah delegates had a good chance to get even by casting all their votes against him. But did they? They did not. The balloting was secret and the votes were later torn up, but you may take it from an excellent authority that four of the Borah delegates voted for Brown.

The reason is said to be that they figured he might get them some Borah votes out of the delegation on the floor of the convention.

Politics is a funny business.

WASHINGTON

By Ira Bennett

TOUCHY

Before leaving for his swing around the southern circle FDR turned himself on internal political quarrels in states he was to visit. Perhaps he had in mind the manner in which Candidate Hughes was whipped in California in 1916, a calamity that cost him the state and the presidency.

Conditions in the Democratic party in Arkansas, Texas and Louisiana are far from satisfactory. They may not have been so near the exploding stage as some Washington insiders feared, but they could cause FDR much grief if he should be drawn into local quarrels. It looks easy to avoid taking sides, but it isn't. Reception committees are made up after squabbles in which one faction likes another—and local Napoleons proceed to bask in presidential glamour, with corresponding rise of temperature among the outcasts.

Seemingly a perfunctory journey, the president's trip caused much trepidation. How to please everybody and rasp nobody was FDR's job—with touchy politicians carrying knives in their boots for other equally touchy rivals.

HOT

The house, still numb because of Speaker Byrns' sudden death, did nothing upon recess adjournment except to send the tax bill to conference. Representative Lamneck (Dem., O.) who voted against the house bill, made a rousing talk, saying he preferred the senate bill—and growls from several corners gave clear warning of the scrap that is to come.

Backed by the president, the house is in fighting mood on this tax question. It resents the common notion that the senate always "perfects" house legislation. Anti-senate feeling binds many members together. Beyond this, FDR wants a tax law that will distribute corporation surpluses with a vengeance. Having laid down this program in the form of a suggestion, he doesn't relish being beaten by a senatorial clique. Why not utilize his big majority in the house to trounce the senate?

A few hot days will be "enjoyed" by shirt-sleeved conferees. They've simply got to get together if there is to be a law.

YIELD

Some evidence of the heat engendered by the tax program was given when Senators Couzens and Keyes refused to serve as conferees. They were replaced by Hastings and Metcalf. The senate conferees are headed by King, of Utah, a leader in putting through a bill obnoxious to FDR. With him on this stand are George, of Georgia, Connally and La Follette—a team that will prove mighty stubborn. Walsh and Barkley, remaining senate conferees, can't move this majority.

Everybody wants to get away before the Philadelphia convention. While FDR hold the house behind its conferees for a time, indications are that most of

the yielding must be done by the house.

"Put it down that the senate tax bill in its essentials will become law, or there will be no tax law at this time," says a senate leader.

Party Held By Chapter Members

LA HABRA, June 12.—The star points of the La Habra chapter of the O. E. S. presented the entertainment and served refreshments at the meeting Thursday evening in the Masonic temple following the regular chapter meeting. A "school days" party was held, with appropriate games and prizes were awarded to Mrs. Alice Townsend, Edgar Letuivier, Mrs. J. D. Herman and Harlen Hodges.

Partners for refreshments were found through mother goose rhymes and the refreshment course consisted of school lunches packed in attractive boxes. The tables were decorated with bright toys. Hostesses were Mrs. R. E. Launer, chairman; Mrs. J. I. Williams, Mrs. C. E. Campbell, Mrs. S. R. Bur-nip and Mrs. Julia Rockwell.

La Habra Center To Meet Monday

LA HABRA, June 12.—The La Habra Farm center will be held at the Lincoln school auditorium at 7:30 p. m. Monday. "The Lemon Pro-Rate Situation" will be the topic of discussion and the speaker will be Edson Abel, employed by the state department and one of the committee in charge of the pro-rate.

TOASTMASTERS ARGUE FEDERAL FORUM PLANS

Controversial issues placed before El Camino Toastmasters club Thursday evening and a novelty in the speaking program made the meeting one of the most intensely argued of any ever held by the club. The federal forum to be conducted here was the table topic which aroused debate, opinion being divided as to the right of the federal government to establish one, the benefits to be derived, and the precedent being established.

Toastmaster of the evening E. M. "Sunny" Sundquist carried the spirit of controversy into his program with three of his speakers being open to heckling during their talks. It developed into a forum instead, however, W. H. Croddy and Ernest Wooster being asked many questions. Their subjects were, respectively, "The Need of Industrial Education" and "Leftward Tendencies." Mr. Croddy showed the necessity for producing more skilled labor, particularly in the building trades, while Wooster traced the events which indicate that many nations are espousing more radical doctrines. W. H. "Ted" Blanding, reviewing Norman Thomas' book, "War," escaped without questions as a result of his talk on the con-

sequences, costs and effects of war, especially modern war.

William Gray and Carl Ranborn told of vacation trips, the first one across the northern states to eastern Canada, the second to Salt Lake City, giving also a history of the people who settled Utah and their difficulties. Ferris Scott gave his hearers a history of the efforts which have been made to reach the top of Mt. Everest and the loss of life and other causes of defeat. He told also of preparations made for the attempt now being made.

Croddy was awarded first place in the vote on speakers. Critics were Glenn Tidball, Dr. C. J. Ruley, Dale Griggs, Malcolm Maccurda, Roy Coleman and Frank Mansur, with Robert Farrar as general critic. Guests of Fred McCandless were Lyman Thompson and T. D. "Ted" McBird.

TIDELAND WELL DERRICK REMOVED

HUNTINGTON BEACH, June 12.—The Preston Oil company has torn down its steel derrick on Orange county's only tideland oil well, about half way between here and Sunset Beach. The short pier at the end of which the derrick stood is also to be removed in the abandonment process.

The well was started on a 150-acre tideland lease, the only one granted in Orange county. It was originally projected by the Vaqueiros Major Oil company, which later transferred it to the Preston Oil company. The well was never completed.

Included was a discussion on "Opportunities for Work in a Machine Age," by Gertrude Nelson; "Employment Possibilities," by Helen Updyke, and "Women in Business," by Veda Ape.

Under the direction of Miss Iris Redfern, the combined high school girls sang, "Sanctus." Dr. G. A. P. Patten introduced a speaker of the evening, and after the address, Gwyneth Shiel, principal, presented the diplomas.

Following benediction by the Rev. E. Buehler, the orchestra played, "War March of the Priests," by Mendelssohn, as the recessional. Members of this class include Frances Brown, Vincent Hale, Clifford Hargrove, Gertrude Nelson, Suz Rangel, Lois Fisher, Florence Huffer, Gwyneth Shiel, Veda Ape, Bob Smith, Kenneth Smith, Arnold Solomon, Eva Thurman, Gorman Tuffrey, Helen Updyke and Arny Valera.

NEWPORT BEACH, June 12.—Dr. Arthur Coons, professor of economics at Occidental college, was the speaker on the afternoon session of the program of the Orange County Federation of Women's clubs of Orange county at Christ church by the Sea this week. Dr. Coons spoke on the topic, "The Struggle for Power in the Far East." Mrs. R. G. Miller of Huntington Beach introduced the speaker.

The afternoon program included vocal selections by Mrs. Robert E. Erbe of Costa Mesa, who was accompanied at the piano by Miss Marion Nelson.

The program followed a noon luncheon at the church, furnished by the Balboa circle of the Women's Aid society. Mrs. Floyd Gare, assisted by Mesdames H. T. Haylen, Emma Shartel, Bell Smith, Allan McDonald, A. Mills, Ethel Forley, Ruth Sadler and E. Fowler, served the luncheon. Mrs. Alex Wright was in charge of decorations. Mrs. Minnie Baker is president of the circle.

Mrs. Mona Summers Smith gave a review of "The First Lady," Mrs. King Joslyn, president of the Bbelle club, welcomed the visitors to the city and Mrs. S. W. Stanley of Santa Ana, secretary program for the day, gave the response.

When the hour was split by early astronomer, the divisions were called minute parts from which we get the word "minute." "Second" was derived from the fact that it was the second subdivision of the hour.

BEACH STARTS CAMPAIGN ON FIRE HAZARDS

NEWPORT BEACH, June 12.—Newport Beach's annual clean-up week is in progress.

Keeping in mind the fact that thousands of people will visit the beach city during the summer months, city officials have launched a drive to eliminate as far as possible all fire hazards. Residents have been asked to clean out attics, old store rooms and any other places where inflammable materials are kept. The chamber of commerce committee in charge of the clean up campaign is under the leadership of George J. Wilson.

Several members of the chamber will attend the 50th anniversary celebration of the founding of Pasadena. It was decided at a meeting of the chamber directors Wednesday in the Bay Front cafe. The celebration will be held in the Pasadena Rose bowl on June 19.

Preliminary arrangements were made to co-operate with the Tournament of Lights association in the staging of the annual fiesta here. The celebration will be held August 15.

S. A. Meyer, Lloyd B. Claire and S. A. Palmer were appointed as a special advertising committee to arrange for a closer contact with other communities of the county. L. W. Briggs, member of the chamber board and also a member of the city planning commission, was named as a committee of one to keep the chamber informed on matters under the jurisdiction of the planning boards.

A letter from Congressman Sam L. Collins stated that a bill before congress requires special crews on boats of 300 tons or over.

BEGIN HERE TODAY
GAIL EVERETT, ambitious to become a designer, comes to New York and—due to a stroke of luck—is hired by MADAME LIZETTE, proprietor of an exclusive shop. Madame proves temperamental and difficult to work for.
DEREK HARGREAVES, young artist, is interested in Gail and offers her friendly advice. Frequently she sees DICK SEARLES, whose sister, ROSEMARY, was her roommate at school.
Meanwhile, in Arizona, MARK CHAPMAN, long a wanderer, returns to find his old home in the hands of the Travers Mining Co. Mark suspects the deal is crooked. He does not know the whereabouts of his niece, Gail, the rightful owner of the property.
DEREK HARGREAVES' son is representing the Travers company.
Mark confides in his friend, old JED HOSKIER, and writes a letter to GILES HARDING, New York lawyer.

Derek asks Gail to marry him and she agrees. A few days later, in a rage of jealousy, Madame Lizette discharges Gail. Gail comes home, and finds a letter offering her \$10,000 for the Arizona ranch.

NOW GO ON WITH THE STORY CHAPTER XXI

"DEREK," said Lucille in the soft tones she affected on occasion, "won't you let me give up this pose for a minute? Every muscle in my body feels cramped! I don't know if I can even move."

"I'm sorry!" Derek pushed aside his palette and brushes and held out a hand to her. "I didn't realize how long you'd been sitting there. Why didn't you speak before?"

"You looked so desperately serious I was afraid to speak."

"Well, come on down now."

"I don't believe I can rise."

"There," exclaimed Derek, lifting her in his arms and setting her down on the couch. "Stretch out for a bit and you'll feel all right." He turned again to his canvas.

"It's not very nice of you to turn your back on me like that," Lucille complained. "Why can't you come and speak to me? I believe you are a woman hater! But there—even if one girl has treated you badly I don't see why you should be so mean to every other girl you meet."

"What's that you say?" Derek moved quickly across the room.

"Well, everyone knows you were crazy about Gail Everett and I'm sure she led you on."

"Stop," he said. "I don't want to hear any more of that."

"So you still worship her?" Lucille laughed softly, tantalizingly. Then, slipping her hand in his, she said, "Derek, I want to help you. I've known Gail for years, and she's not worth worrying about. She loves admiration, but when the time comes when she's ready to settle down every-one knows she'll marry Dick Searles."

"You're sure about that—quite sure?" asked Derek. The night before he had seen Gail and Dick together. He writhed as he remembered how her sunny head had almost touched the other man's. Derek had called Madame Lizette's shop that morning and learned that Gail was no longer connected with the firm. He'd called the club, too, only to be told that there was no one of that name there. He did not know that a new telephone operator was on duty—one with small sense of responsibility.

"Yes, Derek," Lucille went on softly. "I hate to say it, but I know it's true."

GILES HARDING'S secretary stepped quietly into her employer's office. "Here's a special delivery for you," she said, handing him a letter.

"From Arizona! I was just beginning to wonder if Mark Chapman had decided to come east instead of writing." Harding took up a paper knife and slit the envelope.

Quickly his eyes raced across the closely written pages. A moment later he was pressing a button, summoning his secretary.

"I wish you'd call up Madame Lizette's shop," he told her, "and get Miss Everett on the line."

"Mark Chapman says he's heard that an offer is on the way to the girl," Harding explained. "It's the Travers crowd who want the place—he's given us authority to head them off, but we must get hold of Miss Everett at once."

"Oh!" exclaimed Miss West, rapidly dialing.

But when she got Madame Lizette's shop she was curtly informed that no Miss Everett was associated with the concern.

"Not there now!" Harding jumped from his chair as he heard the news. "By George, she surely hasn't accepted and gone west to close the deal! Get Miss Cranston's letter from the file. I think I wrote Gail Everett's address on it. Seems to me she was staying at some club."

GAIL was in her room. For the first time since Derek and she had become engaged he had failed to send her a letter. She could not think what had happened. There was no answer. Gail decided she had called again in the afternoon if she did not hear from him before 5. She could not dream that, though Derek was in his studio, he had resolutely determined not to answer the telephone because he had a feeling that, since he had not written, Gail would surely

56 GRADUATES OF HIGH SCHOOL GET DIPLOMAS

BREA, June 12.—Four honor students headed the class of 31 girls and 25 boys who received diplomas at the 11th annual commencement program of the Brea-Olinda Union High school yesterday. They were Patricia Yriarte, who delivered the valedictory address; Jean Howard, who spoke on "Youth in the Age of Planning"; Jane Stipp, "Good Neighbors," and June Massey, "Diminishing Borders."

Each of the four received from Mrs. Olive Pinney, advisor of the scholarship society, a life membership in the California Scholarship federation and a gold pin in the shape of a lamp, the emblem of the federation. In addition, June Massey received from Mrs. Myrtle Van Derhoof, dean of girls, the school's award, a gold pin, for citizenship and unselfish service. Also for her high rating in citizenship, Miss Massey, who has been student body president during the past year, received the Lions club award, a handsome leather brief case.

The program was held at 5 p.m. in the athletic field. The high school orchestra, directed by Miss Mary Bruner, presented several numbers. Numbers given by the Boys' Glee club, with Miss Louise Chapman singing, were "The Road to You," "Flagger," and "Over the Morning Sea." Wilson. The Girls' Glee club, directed by Miss Bruner, sang "Spirit Flower," Campbell-Tipton; "Children of the Moon," Warren, and "Pierrot," Andrews.

Presentation of the class gift, a large silk flag of the California Republic with the brown bear emblem, was made by William Thaten and the gift was accepted by Bruce Gordon, student body president for the coming year.

C. O. Harvey, principal, presented the class to E. W. Curtis, president of the board of trustees, who conferred the diplomas. Invocation and benediction were spoken by the Rev. Roy F. Stevens, pastor of the Nazarene church.

No individual has even had a complete collection of the world's stamps. It had been estimated that between two and three million dollars would be needed to acquire such a collection.

"You wish to see me—Gail Everett?"

"Yes," replied the gentleman, rising. "I'm happy to meet you again, Miss Everett, though I don't suppose you remember me. I was a friend of your father's and attended to business affairs for him when you were at Miss Cranston's. I am Giles Harding."

"How d'ye do, Mr. Harding? I remember the name, though I cannot say I remember you."

"Yes," replied the gentleman, rising. "I'm happy to meet you again, Miss Everett, though I don't suppose you remember me. I was a friend of your father's and attended to business affairs for him when you were at Miss Cranston's. I am Giles Harding."

"How d'ye do, Mr. Harding? I remember the name, though I cannot say I remember you."

GILES HARDING smiled. "I hardly expected you would. And now, I suppose you'll wonder what I'm doing here. I have some important news for you, but first, I wonder if you have had an offer for some property in Arizona?"

"Yes, I have. Isn't it all right? Don't tell me I'm a Cinderella once again, for I lost my job and this would be a perfect godsend to me?" she asked eagerly.

"Oh, the property there's all right, but it is very valuable and I want to see that you don't give it away for a song. Before I go further, let me assure you that I have no interest in this affair except that, as a friend of your father's, I want to see that you are not fleeced. Also, your uncle has commissioned me to find you."

"My uncle!" Gail exclaimed. "But I haven't a relative in the world! Surely there must be some mistake."

"No, I have the proof right here."

"Well, you just caught me in time," Gail said after the lawyer had talked for half an hour. "I was going to write tonight and tell this man to send me the money. But I can't understand this. You say the Travers company wants the property, but they haven't made me an offer. It is some other man who wants it. I'll get the letter and show it to you."

Gail hastened to her room. She had an uncle; she was no longer all alone in the world! And the Rancho Angelo which had been her mother's home was hers!

Story by HAI COCHRAN Artwork by GEORGE SCANDQ

"Oh, goodness me, what awful luck we always have. Once more we're stuck," wailed Windy. "Now our dog is gone. That spoils a dandy ride."

"The hound, which was a work of art, was ready to hitch to a cart. Then Duncy had to spoil it all. Gee, I could tan his hide."

"Why did you make that crazy cat? You ought to know a thing like that would make our wooden hound run wild," snapped Golty, with a frown.

"Now there's no need to build a cart, 'cause we have no way to depart. Just think! You've spoiled our plan to drive off to some brand-new town."

"I'm sorry," they heard Duncy say. "But, tots, I know another way that we can move from this place. If the magic man will aid."

"He is a carpenter, you see, and just as clever as can be. If he is willing, something we can ride in can be made."

"Gee, Duncy, maybe you are right. Let's plead with him with all our might," said Golty. Then the magic man said, "You won't have to plead."

"I think the plan's a dandy one, and building something will be fun. You see, I still have lots of wood and all the tools I need."

"Hip, hip, hooray! What shall it be? Most anything's all right with me," yelled Coppy. "Make suggestions and we'll pick the best of all."

"However, don't suggest a boat, 'cause I would rather fly than float. Besides, once more into the soaking sea we might all fall!"

The whole bunch thought for quite a while and then fair Dotty with a smile, said, "How about a box kite that will carry all of us?"

The magic man exclaimed, "Okay! I'll start to build one right away. With some help from

JIMMY FIDLER in HOLLYWOOD

HOLLYWOOD, June 12.—I do not subscribe to the belief that there are ghosts, yet I must relay to you certain odd stories that have reached my ears. "They say" something peculiar is going on at 20th Century-Fox studios. Folks are hinting that Will Rogers' old dressing room is haunted. Not one but several persons relate tales of queer shenanigans. The caretaker who daily cleans the bungalow vows that on numerous occasions she has found furniture moved around when there was no one to move it. Particularly, she says, Will's favorite chair is mysteriously shifted to a position near the fireplace where Rogers was wont to snooze following lunch.

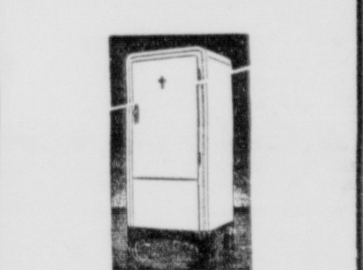

Others tell about queer telephone calls; the bell rings and they answer and obviously the line is open but no voice responds. A night set-builder whose honesty has never been questioned reports that he saw lights in the bungalow, and when he peered through a window he recognized the figure of Rogers rumbling through an old desk. Some have reported strange sounds emanating from the building. One and all, stars and contract players have refused to occupy the quarters, but I am inclined to believe their reasons are sentimental rather than superstitious.

The city of Beverly Hills may relieve this situation, for the city's fathers are considering removal of the bungalow to a park midtown. Will, you may recall, was once Mayor of Beverly Hills and he made his home there for years.

Carole Lombard has built an interesting new house and thus far has refused to permit her studio to photograph it. Yesterday she told me why; she wants at least one thing in life that is entirely

her own, not to be shared with the public. I offered a slight wager (which she accepted) that the studio will beat down her resistance within two months.

During the filming of a scene for "Charge of the Light Brigade" yesterday, Errol Flynn waxed a bit wild during some sword play. He took a swipe at an opponent, missed him—and the blade followed through to smash Olivia de Havilland a blow on the head. Fortunately, the flat side of the sword struck the actress; even so

What IS the Face behind the Mask?

ON YOUR November 3rd ballot, hidden behind the words "Sales Tax Repeal" will be one of the most dangerous proposals ever presented to the voters of any state—the *Single Tax Law*. To vote for Sales Tax Repeal is to vote for *Single Tax*.

By placing practically all taxation on land—on your home, your farm, your ranch, on city lots, acreage, all land—improved and unimproved—land taxes would be increased between 200% and 400%. This tax would be utterly impossible to pay—resulting in confiscation of practically all land by the state.

Those who own no property would be faced with greatly increased rents, prices of food, clothing and other necessities—thousands thrown out of work. Many schools would have to close.

Know the truth! Don't let convincing schemers fool you with the sweet honey of Sales Tax Repeal—while they inject the gangrene of "Single Tax." Tell others about this poisonous deception before it is too late. Do it for your state, your home, your loved ones. **NOW is the time!**

BENEFIT DANCE
HELD SATURDAY

The Vera Marilyn Getty dance review, staged annually for the purpose of raising money for the Santa Ana Junior college student loan fund, will be presented tomorrow at 8 p. m. in the Willard Junior high school auditorium. Nearly 200 students, presenting a diversified program of numbers typical of all types of dancing and songs, will be accompanied by an orchestra under the direction of Mrs. Janet Martin.

The scenery used in the stage production was designed and built by the Santa Ana high school art department under the supervision of Miss Neil Bonus. Particular attention has been directed this year toward the costuming of the dancers who participate in the review.

The program to be presented tomorrow night by Miss Getty is as follows:

The first division will present the Modern Mother Goose in tap and acrobatic dancing, with Ginger Germaine and Dickie Runnels featured in the wedding of Jack and Jill scene.

Second Division
The second division, "Mistress Mary and Her Garden Ballet," will introduce Virginia Reed, Mary Ella Powell, Marlene McCullum, Jo Ann Hollerith, Winifred Young, Joyce Ferguson, Jo Ann Mitchell, Katherine Hildebrand, Florence Feinberg, Patsy Dawson, Ruth Caudrey, and a group of eight smaller children in a butterfly number.

The third division will present advanced students of the Getty dancing school.

A feature of the program tomorrow night will be the introduction of Nye Martin, 14, in a series of specialty numbers. Young Martin, who won first place in the recent discovery review, will be guest soloist.

Tickets for the affair are 25 and 50 cents, and may be obtained through the Santa Ana Book Store. The entire proceeds will be placed in the student loan fund.

WESTERN THRILLER
OPENS AT WALKER'S

Johnny Mack Brown and Helen Erickson have the leading roles in "The Courageous Avenger," which opened for a two-day run at Walker's State theater today. Their romance is nearly wrecked when Johnny is unable to make explanations at a time when they are needed, while he is engaged in rounding up a band of outlaws.

Other subjects on the bill include "Ants in the Pantry," a comedy; a news reel; a chapter of "The Miracle Rider," with Tom Mix, and a cartoon.

The Kiddies' club will hold its regular weekly session beginning at 1 p. m. tomorrow, and treats will be provided for all members in attendance.

SANTA ANA BANK EMPLOYEE
TELLS OF WORLD JOURNEY

With his shipmates from Massana (Italian Somaliland) to Cairo including "the two flying Mussolini boys, Vito and Bruno", Tage Carlson, employee of Santa Ana branch Security National bank, has encountered many interesting people on the European tour he is now enjoying.

A letter received this week by Frank J. Was, manager of the bank, contains accounts of some of Carlson's experiences, including the voyage in question, in describing the coming aboard at Massana of Vito and Bruno Mussolini and their brother-in-law, Ciano, he writes, "They were accompanied by some generals and other gold-plated individuals who had 'honorably' finished their crusade in Ethiopia and saved millions from heathendom, poison gas or no."

"They will get a royal welcome in Italy. You should have heard the cheering and hurrahing and seen the flag waving when the ship left Massana and when we arrived in Suez and in Port Said. I'll bet there are thousands of poor Italian throats now being nursed back to normalcy. They are certainly enthusiastic hero worshippers."

On Italian Liner
Carlson was on the Italian liner "Conte Verde," from Singapore via Colombo (Ceylon), Bombay, Massana and Suez to Port Said, where he landed May 15. This was his first letter to the Was family since his stay in Manila where he spent 10 days and visited the famous mountain resort 200 miles from the city. "I had the good fortune to meet one of my earlier traveling companions there," Carlson writes, "He had landed a very good position. I was lucky to be able to stay with him for I arrived at Easter time when every hotel and inn was full to overflowing."

"I found Saigon a typical French town, very pretty with wide tree-lined boulevards and fine residences. The natives are ugly and nearly all chew betel nut, an awful concoction which swells their lips and makes plenty of red juice over the sidewalks. Pedestrians beware!"

"Bangkok has interesting architecture and vegetation. Took in a native Siamese theater and in contrast, a modern Siamese cabaret. The former, with its odd music and dances and its audience, was well worth seeing. I stopped in Singapore one week. My idea was that it would be a regular 'hell-hole'—but no such thing! It was a real Presbyterian town instead, clean, well kept and orderly. The British surely know how to manage things in the Orient. Places controlled by them seem much better run but they have their troubles controlling Indians and Egyptians—no enviable task in my opinion."

Task Motor Trip
"In Colombo we took a motor trip to Randu, 75 miles away in the mountains. It was a wonderful ride through rice fields, coconut, rubber, tea, date and pineapple plantations, with plenty of elephants to be seen in action, dragging and carrying logs and doing 'odd jobs' around the house."

From Port Said, the Santa Ana traveler went to Cairo by train through the Nile delta. "Farming land is almost as expensive as in Orange county," he declares. "Plenty of irrigation water plus silt equals big crops." He sums up further Egyptian impressions with "Pyramids, sphinxes, mosques, minarets, tombs, palaces, citadels, jewelry and caskets—one of pure gold weighing 220 kilograms—would Roosevelt like to get his hands on that!"

From Egypt the Santa Ana traveler went to north through Italy, touring that country with an American army captain and his two young sons. He will visit other continental countries en route to Stockholm, Sweden, his former home, where he has two brothers living. He will not return to Santa Ana until the early winter.

PARROT STARTS
TO LAY EGGS;
NAME CHANGED

By ELEANOR ELLIOTT

Sharing honors with the news value of the man that bit a dog, is the story of Albert, famous Atlantic City parrot that after an exemplary existence for 15 years as a barber shop pet, suddenly astonished his owners by laying an egg.

But Albert has his prototype in Santa Ana. For the past 17 years Mrs. Reuben Bouds' home on East First street, has had as its chief family pet, a handsome parrot that the entire family believed to be of the masculine persuasion. Two years ago, the parrot went in for feminism in a big way, and in the intervening time has laid five eggs. He is now called Nancy.

One of Nancy's boon companions is Toby, the cream-colored Persian kitten belonging to Mrs. Bouds' daughter, Mrs. Fanny Steele. Casual callers in the home, accustomed to the age-old enmity between cats and birds, find amazement in the sight of Toby stretched out on top of Nancy's cage, his paws down through the bars to embrace the fair Nancy.

Parrot Likes Cat
The parrot goes wild with delight when the cat comes near, and Mrs. Bouds, who has been more or less of an invalid for the past months, finds their affection for each other one of the pleasantest elements of her otherwise tedious days.

These are but two of many unusual pets in Santa Ana. One of the friends of the Bouds' home is Miss Harriette Reynolds, 925 North Flower street, and her toy Boston bull, Lucky Baby, is just as individual in his way, as are Nancy and Toby. Lucky Baby can do almost anything short of actually talking. He understands as much of what is said in his presence as the average small child. And like many children, he can no longer be deceived by a spelled word. Such simple words as cat, bed, doll, ball and several others which he recognizes as his own possessions, are as familiar to him when spelled as when pronounced. Miss Reynolds has made no special attempt to teach him these words—he has just picked them up as children do.

PIE URGED FOR BREAKFAST
PASADENA, (UP)—Bill Keller celebrated his 91st birthday by making the customary contribution to the science of longevity. It is blueberry pie for breakfast. He says he has had one every morning for the past 25 years.

The Amazon river is the widest in the world.

CANDIDATE

Clyde A. Watson, below, former mayor of Orange, who today made formal announcement of his candidacy for the assembly from the 74th district on the Democratic ticket.

CLYDE WATSON
IS CANDIDATE
FOR ASSEMBLY

Clyde A. Watson, former mayor of Orange, today formally announced himself as a candidate for assemblyman from the 74th district on the Democratic ticket.

Watson came to Santa Ana in 1889 with his uncle and aunt, Mr. and Mrs. E. B. Tomblinson, part-town instead, clean, well kept and city. A citrus grower near Orange for the past 29 years, he is a member of the Orange County Farm Bureau and a past president of the Foothill Farm Center. During his term as mayor of Orange, Watson was instrumental in the organization of the county League of Municipalities. He has served as a member of the Orange Union High school board and is a director of the Villa Park Orchards association.

"I feel that I am acquainted with the problems of both city and rural sections of this district," the candidate said in his announcement today, "and I am confident that I can represent the people fairly and intelligently."

Standard certificates in Home Hygiene and Care of the Sick have been issued today by the American Red Cross, through the Santa Ana chapter. "This is the largest number to complete the Standard course in recent years," Mrs. Holmes commented.

Two classes were taught in the Adult Education Department of the Santa Ana schools by Mrs. Ellen M. Smith, R. N., who is an appointed instructor for the Red Cross.

Those who are receiving certificates are: Mrs. Rena Borchard, Mrs. Margaret Davis, Mrs. Myrtle Dunham, Mrs. Josephine Farrar, Mrs. Ester Fletcher, Mrs. Zaidie Gibbs, Mrs. George Hasenjaeger, Mrs. A. D. Jones, Mrs. G. M. Kelly, Mrs. Cora M. McCann, Mrs. Beulah McClure, Mrs. Ann Sander, Mrs. Josephine Schuster, Mrs. Daisy C. Scott, Mrs. Edith Sharp, Mrs. Bertha Thompson, Miss Gertrude Ticker, Mrs. Agnes Townsend.

Mrs. Neil B. Thompson, and Mrs. E. Winchell, of Santa Ana; Mrs. Belle Falls, Mrs. Elmer Koenig, Evalyn Nesbitt, Mrs. Grace Sisson, Mrs. Fern Coleman of Orange; Mrs. Eddy Ross and Mrs. Eva Watkins of Anaheim; Mrs. Adeline Cunningham, Mrs. Evans, Belle Johnson, Mrs. Effie Harris, Mrs. Gladys Morton, Mrs. Ann S. Rountree, and Mrs. Rose Young of the County Hospital.

These were the only adult classes in this course taught in the county this year, so Mrs. Laura R. Warren, executive secretary for the Orange County Council, American Red Cross chapters reported.

Winter-Thomas Wedding Occurs In Home Of Bride's Parents

Beautifully appointed with pastel-hued flowers, the home of Mr. and Mrs. George D. Thomas, 304 Wright street, was setting yesterday afternoon for the marriage of the daughter, Miss Virginia E. Thomas, to John S. Winter, son of Mrs. Mary E. Winter of San Jose.

Pale blue asters and larkspurs were combined with pink and white gladioli at the improvised altar, which was backed with ferns. The Rev. Harry George Ford, pastor of Free Will Baptist church, Ashland, N. H., a former classmate of Miss Thomas at the University of Redlands, officiated.

Four o'clock was the hour for the wedding, attended by relatives and close friends of the couple. Miss Laura J. Winter, lifelong friend of the bride, sang "Serenity" (Mary Turner Satter), and "Because" (Guy D'Hardenlot). She was attired in a green organza gown with a corsage bouquet of white carnations. H. Raymond Thomas, brother of the bride, sang "At Dawning," accompanied by Miss J. Winter.

The bride was charmingly gowned in pink spider-web lace over pink satin, and she carried her mother's wedding handkerchief. Bridesmaids wore white, and bridesmaids' bouquets of white carnations, red and white roses and larkspurs formed her bouquet.

Mrs. Thomas wore peach lace, and Mrs. Winter, navy blue crepe, both with corsage bouquets of gardenias.

Reception

Rosebuds in a pink crystal bowl centered the dining room table, which was spread with lace and lighted with white tapers in pink crystal candlesticks during the reception. Pink roses and orange blossoms decked the bride's table, which was topped with a tiny bridegroom, ice cream with wedding bell centers was served with other dainties. Wedding cake slices were wrapped in white cellophane tied with pink ribbons and clusters of orange blossoms.

The newly-married couple left for a honeymoon trip of unannounced destination, the bride donning a gold crepe frock with white accessories. They will make their home in San Jose. The new Mrs. Winter, a graduate of Santa Ana Junior college and University of Redlands, has been employed in the tax collector's office. The bridegroom, a graduate of San Jose State College, has been doing graduate work the past year at University of California, Berkeley.

Toros Rebekahs

Mrs. Ethel Brown was elected noble grand of Toros Rebekah lodge to succeed Mrs. Eleanor Pickel when members met Wednesday night in 1, O. O. F. hall. Installation will take place in July.

Named to serve with Mrs. Brown were Minnie Tucker, vice grand; Blanche Chandler, financial secretary; Emma Cochens, treasurer; Martha Vandewalker, recording secretary; Maud Swarthout, trustee for 18 months.

Mrs. Pickel conducted the meeting, during which Mrs. Ada E. Paul and Mrs. Gladys McDonald were initiated. The latter became a member by transfer.

Escort honors were accorded two past presidents of Rebekah assembly, Mrs. Amelia Prather Ostering of Los Angeles, who gave a short talk; and Mrs. Fannie M. Lacy of this city. Mrs. Jennie May Annin of Fullerton sang, accompanied by Hazel Solesbee of Fullerton.

Refreshments were served by Martha McKee and Edna Kinsella. Banquet room decorations were in yellow.

Shady La Crescenta Garden Is Scene Of Quiet Wedding

Simplicity in every detail was the distinguishing feature of the quiet rites which yesterday afternoon at 3:30 o'clock, united in marriage Miss Kate Benton, daughter of the Rev. W. L. H. Benton of La Crescenta, former pastor of Episcopal Church of the Messiah in this city, and Leonard Field of Fort McArthur, son of Mr. and Mrs. Gary M. Field of Orange.

Only members of the two families were present for the ceremony, which took place in the shady garden of the Benton home, 2508 Fairmont avenue, La Crescenta. The Rev. Vernon Harris, rector of Trinity church, Los Angeles, officiated.

Pretty Scene

Miss Benton observed the same simplicity in the ritual that was maintained in other details. There was no music, and she moved quietly across the grass, attended by her girlhood friend, the former Edith Twiss, now Mrs. Edward Field of Van Nuys, who will be her sister-in-law.

The bride chose white silk crepe fashioned on classic lines, and worn with a wide-brimmed leghorn hat. Her flowers were white larkspur accented with sprays of blue delphinium and yellow snapdragons. Mrs. Field chose a summery garden party frock and hat with flowers in harmonizing hues. Edward Field assisted his brother as best man.

Miss Jean Battersby of the home, received the guests and presided over the serving of refreshments after the ceremony.

Mrs. Field is a former Santa Ana Junior college student who is now with the medical corps at Fort McArthur. However, he is leaving the service in September, after which the young couple will make their home in Los Angeles where he will qualify as a Diesel engineer. His bride has been librarian at Van Nuys where the two will live for the present.

Party Hostesses Raise Funds for Beaumont

Two high and low scores, Miss Louise Tubbs, receiving a door award; Mrs. William Rohrs and Mrs. B. Martin, holding high and low honors in sewing, completed the list of prize winners. Stamp News

By I. S. Klein

FIRST to rise in a balloon, and first victim of an air disaster, Pilatre de Rozier is to be remembered by a new stamp which France is issuing on the 150th anniversary of his death. Rozier went up with the Marquis d'Arlandes, in November, 1783, and remained in the air 20 minutes. After various other flights, he tried to cross the channel, contrary winds blew the bag back over the shore, the hydrogen caught fire, and Rozier fell to his death.

Business for the government, at the recent international stamp exhibition in New York, was so good that an additional printing of the souvenir panes of four commemorative stamps has been ordered. A total of 1,121,056 of these panes was sold at the exhibition, for a return of \$134,526.72. Sale of other U. S. stamps brought the total sales to \$229,574.99.

The souvenir panes still may be obtained from the Philatelic Agency in Washington, at 12 cents each.

Last call for preparation and mailing of covers to Little Rock, Ark., for first day cancellations, with the new Arkansas centennial 3-cent stamp, on June 15. Covers reaching the Little Rock postmaster up to the end of business on June 15 will receive the first day cancellation.

Argentina's recent map stamp, which brought a protest from Great Britain because it included the Falkland Islands as Argentine territory, now draws a complaint from Chile. The new protest is that the color designating Argentine possessions extends over into Chilean territory. Demands have been made that Argentina have drawn the stamp from circulation. THE WEEKLY PANTRY SHELF

GOOD GARDENING

By Mrs. H. Cardoza Sloan, Corona Del Mar

Being sound advice and interesting comment on what to plant and how to care for Orange County gardens.

DIVIDE IRIS NOW

If you have German or bearded iris remember that right after they have finished blooming is the proper time to divide clumps which have become crowded. With a very fast growing or a very slow growing variety the time may vary, but ordinarily the clumps should be divided every three years. And it is an easy and pleasant way to increase stock of these beautiful plants.

Loosen the ground all around the clump and lift carefully to avoid wounding the roots. A spading fork is a good implement to use, with

which the clump may be pried out gently but firmly. The leaves and stalks should be cut down to seven or eight inches. The rhizomes should be cut apart with a sharp knife and a keen stroke, and it is well worth while to dust the cut parts thoroughly with sulphur. In replanting, make the hole deep enough to spread the roots carefully and just barely cover the rhizome with soil. Set them at least 10 inches apart to allow plenty of room for new clumps to form. Water well, and keep the ground moist for several weeks until the roots have taken fresh hold in their new situation, then water less frequently, once a week, perhaps for a month or so longer. During the summer they need practically no water. Which is the reason this type of iris does better if planted where it can be quite dry during the summer months than it does in a mixed border which must be kept wet for other plants.

If your iris do not need dividing this year, trim the tops down just the same after blooming, and gradually lessen the watering. In the fall they may be cut again to within an inch or two of the ground, to encourage fresh new growth. Bone meal can be worked into the ground at that time, and watering increased as they approach the blooming season.

FOR YOUR LILAC

A reader of our garden column who has loved the lilac in her youth writes feelingly about a common lilac bush she is trying to grow, for old times sake, in her Santa Ana garden. Or perhaps we should say trying to bloom, for her 12-year-old bush has grown into a fine specimen, 10 to 15 feet tall, but has flowered only a few times, and then only "three or four little nubbins" of bloom. To one who loves the lilac there is charm even in the heart shaped leaves, yet, naturally, one longs in the springtime for the sight of the purple plumes of

bloom and the scent of their fresh and lovely fragrance. So what, asks our reader, can be done to make her bush bloom more abundantly?

Our heart beat in sympathy for this lilac lover, and having no magic words to give her, we wrote at once to the Armstrong Nurseries at Ontario in the hope of getting some promising suggestion. But, alas, the Armstrongs have only to tell what we knew already, that the old Eastern lilac does not grow well in California, needing colder winters, and that some specimens refuse to bloom. As the writer can testify, himself having a lilac which seems to be blood brother to Mrs. W.'s, so far as its flowering habits are concerned. He suggests that she dig out her Syringa vulgaris and replace it with one of the French hybrid lilacs, which seem better adapted to our climate. However, the Californian who is struggling with the common purple lilac is growing it from sentiment, and his yearning cannot be appeased by any French hybrid, however beautiful.

Now it comes about, by that coincidence which is always surprising to us, that tonight, when I open my June "Horticulture," I find a paragraph on lilacs, with this comment, "The terrible winter did not touch the lilacs, unless it really strengthened the old vulgaris plants, which are a perfect glory of bloom." Ah, thought I, one more evidence that it is cold the lilac must have, driving sleet and frigid blasts.

And then what do you think I saw next, under the heading "Lilacs that do not bloom?" "Several of my lilac bushes failed to flower, although several years old. I do not understand why. Can you help me?"

So, after all, not all the lilac bushes which fail to flower are in California. "Horticulture" is published in Boston, and the reference is evidently reasonably local. Says the editor "Sometimes certain lilac bushes, due to various causes, simply will not bloom." And he goes on to quote from a recent bulletin of the Arnold Arboretum in Boston, dealing with this problem. I condense it here in the hope it may be of some

help to anyone having a beloved old common lilac which fails to flower.

Too much shade will prevent bloom. So will too poor a soil, which should have a liberal application of manure in earliest spring. And likewise so will too rich a soil, which will tend to throw all the nourishment into the foliage. If the bush is old, pruning out old growth to force new shoots from the base of the plant may help.

Superphosphate, or any fertilizer having a large proportion of phosphorus, has been successfully tried to promote flowering in lilacs, and is recommended where the bush has made a flourishing growth but the bloom is scarce. This is the way to apply it. Dig a ditch a foot and a half deep, all around the bush, several feet from the base. Mix the fertilizer with the soil as it is thrown back into the ditch. On a 10 year old lilac several pounds of superphosphate may be used.

SHARE THE WEALTH

Here is a "share the wealth" plan which I present as an especial plea to all gardeners. Share the wealth of your garden with those flower lovers who have no gardens.

In years gone by I had a lovely garden, and I thought I was generous with its harvest. I remember laundry tubs filled with flowers gathered for the festive affairs of various friends. I remember we never went to Los Angeles without flowers, keeping fresh in a pall of water in the back of the car, for the city friends. I remember we saved all the laundry boxes and suit boxes to line with white tissue paper and fill with roses (what a sight one would be filled with the dew wet buds of Belle of Portugal), with pansies against a background of maiden-hair, with all the varied blooms of our garden, to be carried hither and yon to people who loved flowers. We thought then we were generous with our garden. It was one of our chief pleasures, to share with others the flowers that gave us so much joy. But, oh, how I wish now that I had given more away.

For now I have no flower garden and I appreciate what the gift of a few flowers means to one who loves them and likes to have them about her. To be sure I have a garden, and a very lovely one. But it is a specialized lath garden for shade loving plants and I miss the flowers from the sunny garden. When someone brings me a handful of blossoms my heart simply turns over at the sight of the dear familiar things—candytuft, calliopsis, ageratum, bachelors button, phlox Drummondii, snapdragon—these and others as dear, a whole pall full of them from a friend last week. And today a branch of magnolia with a huge, partly opened bud, and two fine spikes of "Easter" lilies. You've no idea how beautifully these combined in a white jar, the soft, golden bronze of the new magnolia foliage picking up the golden yellow tints of the lily pollen. Sometimes a friendly neighbor brings me a bunch of whatever she has in her garden, always some heliotrope and a few roses in it.

I'm moved almost to tears by these floral offerings, when memories stir at the sight of them what tenderness fills my heart when I put my face down to the velvety touch of their petals, and smell their mingled scents.

So I beg of you, you fortunate ones with flowers, make it one of your daily good deeds to carry some of your blossoms to one who has none—share your wealth.

Summer Stains... VANISH LIKE MAGIC WITH ME ON THE JOB!

COOL WHITE and color-fast cottons and linens are popular summer wear for children and grown-ups. But romping play, picnics, beach parties, sports, outdoor life in general, all help to cause stains and increase the family wash. This summer don't let these stains make extra work for you... banish them the easy Clorox way.

A little Clorox removes ordinary stains and dinginess in the regular laundering process. In a slightly stronger solution Clorox takes

out stubborn stains such as ink, fruit, flower, grass, beverage, medicine, blood—even scorch and mildew. And, too, Clorox removes jelly and fruit preserving stains from bags, aprons, towels, utensils and drainboards.

Clorox not only removes stains but bleaches, deodorizes and disinfects—all in one easy operation. Like Clorox itself, the Clorox label is a revelation of safer and easier housekeeping. It also lists many important personal uses. Clorox is concentrated for economy. There is only one Clorox.

LET'S TALK ABOUT BOOKS

BY ETHEL K. LOCKWOOD

INTERESTING TRAVEL

Why do the most appealing travel books come out in the spring when it practically takes hammer and nails to fasten us to our desks, anyway?

"Green Mountains to Sierras," by Zephine Humphrey, an E. P. Dutton & Co. release, is one of this type. It is an easy-reading tale of the trip the author and her husband, Christopher, took from Vermont to California, with many unpremeditated wanderings round about.

Europe may stir us, Mexico call forth a longing that we may never have an opportunity to fulfill, but here is a trip the average person can take, and for this reason, alone, Zephine Humphrey's book is a gold mine of inspiration and information.

She "shamelessly shirked" cities and points of interest the average tourist is likely to go in for. You might gather from this that she had a dull, uninteresting time. Not at all. Her experiences only serve to emphasize the fact that adventure is always just around the corner, if you are tuned for it, and thrilling scenes are not always the ones that receive the most publicity.

Carmel, California, won the author's heart, and it was here she had an interesting experience that had nothing to do with travel. A woman, whom Miss Humphrey assures the reader was entirely normal and wholesome, staged a most unusual experiment with a roll of shelf paper and a handful of pencils, when a supposed "control," whom the group named "Tommy," gave them some cleverly-worded information. This takes up considerable space, and should be mentioned as an important part of the book.

There is a wholesome philosophy all the way through "Green Mountains to Sierras." Of course, if you are a rabid Californian who can't take a good-natured rap at our greatly advertised state, you

may resent some of the author's remarks, particularly about the "unreality" of California.

California is real enough to me, after living in it for 20 years, but I don't expect the newcomer to see it as I do. In fact, it took two trips to California, to make a convert out of me. Miss Humphrey has a right to her opinion. She has turned out an excellent book, and my hat is off to her.

MEATY LITTLE BOOK

Simon & Schuster have just released a new book by Dorothea Brande called "Wake Up and Live," and it is attracting wide attention. "Wake Up and Live" offers a system of stimulating the mind, and enabling the individual to make the most of his opportunities for success and happiness.

I have not put all the theories in practice, but I have made use of some of the suggestions Miss Brande offers, without knowing I was working any particular system.

Arch enemy of progress, Miss Brande asserts, is the "Will to Fail." Without realizing it, many of us are actually planning our lives to fail—not succeed—when we might just as well use our energies in the right direction.

Inertia, the inclination we all have to "let well enough alone," is the stumbling block over which the majority of us fall. She has no sympathy for the optimistic failure, the man or woman who has gone smilingly down to defeat.

She does not, however, believe in the vicious "drive" which we have grown to believe the successful person must use to attain his ends. It is a wise, well-arranged program of constructive "will-to-live" work that we need, according to Miss Brande.

Definite plans for pulling out of the ruts are given, and given in a logical, easily understood manner. This is no treatise especially for the deep-thinking student, but for everyone.

The author takes a neat dig at our time-killing pastimes, and her stand is well taken. So many of us fail—not because we do not have real ability—but because we do not use that ability in a deliberate plan to achieve success. We think we do, many times, but we are kidding ourselves.

You—and you—and YOU should read this book.

NEW RINEHART NOVEL

There is entirely too much dying in "The Doctor," by Mary Roberts Rinehart, to appeal to me, and I am quite sure many other readers will feel the same way about it. It does have reality and is interesting, but it hardly seems necessary to kill off so many characters in one book.

The story concerns a surgeon, Noel Arden, and tells of his struggles from internship to city physician. Those who like to finish a book all soggy with tears and sympathy, will find the "Doctor" good reading. The publishers are Farrar & Rinehart.

Today's Guest Editorial

By
Howard I. Wood, Secretary Santa Ana Chamber of Commerce.

The "Guest Editor" selects his own subject matter and it may or may not agree with the opinions of the publisher. The Register will invite and publish daily a "guest editorial" by some prominent, practical Orange county citizen.

YES, WE HAVE NO PRISON

Orange county was more nearly a unit in its determination to exclude the proposed state prison than on any matter which has arisen for years. Electrified by an impending major catastrophe, which would have prevented for all time to come the selective development of the county, its people suddenly found their thoughts crystallized into the opinion that WE DO HAVE A DIFFERENT COUNTY. Focused into action, this determination rocketed itself upon the consciousness of the special legislative prison committee, and the will of the people triumphed, even as it always triumphs when sufficiently aroused.

That Santa Barbara Atmosphere

In the midst of some justified exulting at escape from the beckoning menace, might we not profitably give thought for a moment to this question, "How did it happen that the legislative committee ever thought of situating the prison in Orange county?" They never thought of placing it in Santa Barbara county. Why? For the very reason that Santa Barbara has for years known it is a different and higher class county than others. Not only are Santa Barbarians conscious of this, but all the world is conscious of it. Now, the only difference between Orange county and Santa Barbara is this: Orange is a different and better county and by means of the prison fight, has become conscious of that fact but has not as yet made the world conscious of it; Santa Barbara is a different and better county and HAS MADE THE WORLD CONSCIOUS OF IT.

What'll You Have, An Asset or a Liability?

All of which brings up thoughts for speculation, such as, "like attracts like." If we don't prepare Orange county and promote Orange county to take on a particular and selective growth, it will by lack of direction, take on a non-desirable growth, which not only will not be an asset, but will distinctly be a continuing and ever-mounting liability.

We May Have Company Thrust Upon Us

As for example: Presume that an elderly couple in a Northern California county qualifies for old age pensions. Together they can draw \$70 per month. Suppose that instead of continuing to endure the rigors of a northern county, they become enamored of the milder climes of Orange county. They can notify the state that they wish to remove to Orange county, and can then do so. For one year the state must continue to pay their pensions. FOR THE BALANCE OF THEIR LIVES ORANGE COUNTY MUST PAY THEIR PENSIONS. This is just one of several highly disturbing possibilities in the new so-called welfare procedures of the nation, states and counties. If we don't set out to make Orange county the home of people we need and want, we shall involuntarily find ourselves the domicile of those we don't want.

This Paragraph Relates to a Rudderless Ship

Does a rudderless ship get to its port? Does a community arrive at any desired destination, without first shaping its course? The questions answer themselves. Orange county is at a cross roads. Even now we are late—very late—in shaping our course.

Would a policy of making our county exclusive pay? In Westwood, Beverly Hills, Montecito, well-to-do people pay up to \$30,000 per acre for sites for estates, that are in their native state not nearly as attractive as our foothill citrus properties, or our incomparable Orange county riveria. In our foothill citrus groves, surpassing in attractiveness the finest lands on the shores of the fabled Mediterranean, are purchased at from \$2500 to \$3500 per acre on a production basis. Nothing is needed to put the Orange county citrus groves, and much other property, in the \$30,000 per acre class, but a changed mental state—we must set our sights higher.

It's Pleasant Even to the Pocketbook Nerve

Consider it for a moment from the standpoint of county valuation. Our present true valuation is \$380,000,000. Suppose that by direction of the county's course of development, we had attained a ten per cent increase of true value. The amount would be \$38,000,000. There are many who have been giving this subject some thought, who believe we could realize ten per cent of the objective in ONE YEAR, if we could unite all forces in the county back of such a plan.

Orange county is at the cross roads.

MISMANAGED MONEY

It seems many of the men of congress, both Republicans and Democrats, do not realize that the United States has had mismanaged money for many years. They prattle about the gold standard, while, in reality, our banking laws have permitted us to mismanage our currency and our credit. Any system of money, in the final analysis, must be managed. The problem is to manage it so that the purchasing power of money fluctuates the least. We have, in reality, had a mismanaged money for many, many years in this country, as well as the world over. It was supposed to be on the gold standard up to 1933 but when credit was used as money and credit (bank deposit

credit), it was not, in reality, on the gold standard. It was simply a mismanaged money.

Students of history are pretty generally of the opinion that money based on gold and exchangeable for gold, in which no group of men are permitted to issue warehouse receipts for wealth, which they do not have is, in the long run, the best kind of money and the safest money. The sooner we realize that we must correct our mismanaged money and get it on a sound basis, the better we will be.

Economists, however, are of the opinion that, unless all services and commodities are on a strictly competitive basis and all monopolies prevented, a sound money system is impossible. We must have periodic inflation to break the deadlock caused by monopoly. Competition and sound, honest money go together.

COMPLACENCY OF NEWSPAPERS

We are indebted to Mrs. Horn as a contributor to the Clearing House for an article taking exception to The Register's editorial headed "Complacency of Educators."

We do not intend to convey the impression that educators were any more complacent than other groups—our complacency had reference to trying to create intelligent public opinion which would result in sound, practical, honest laws which are necessary if we are to have employment at good wages for all who desire to work. This, we certainly should have.

If there are any offenders, as to complacency, that are more guilty than publishers of daily newspapers, we do not know them. It is our opinion that our present plight is due to complacency of people who should be leaders in thought and ever fighting against the establishment of customs and laws which make it impossible for us to advance. Newspapers and educators are, of course, not the sole offenders; leaders of business and professions of all kinds are included.

Mrs. Horn contends, because the educators attend so many meetings, that they are not complacent. So do the publishers of newspapers attend many newspaper meetings but they are invariably for the purpose of advancing the interests of newspaper publishers and quite often for the purpose of creating special privilege laws which get them excessive rates for legal advertising or keep them from paying postage on the papers they send through the mail at the rate they should pay. We would not say, however, because publishers attend meetings that they are not complacent, as far as courageously pointing out to the public the logical effects of laws that promote class legislation and special privileges.

We would be greatly obliged if Mrs. Horn would be specific in what she means by progressive education, a term which she uses repeatedly. We would also appreciate it if she would explain how up-to-date equipment would help the student learn to know whom to believe, as to honesty and judgment, and learn the fundamental laws of nature, and to be able to see what will happen before it does happen, which are, in our opinion, the foundation of sound education.

We, of course, understand that the directors of public education have a very difficult task to perform. The voting majority cannot expect great results when they elect executive educators and then restrict and restrain, by legislation laws which prevent the executive from using his best judgment in giving service to the school.

The public schools are such an important factor in creating public opinion that complacency of the parents is most serious as to permitting or causing laws to be passed which hamper educators in performing their duties.

With half of the unemployment in the world in the United States, which is the richest country in the world, and the United States spending more on public education than any other nation in the world, any complacency on the part of the educator, as to trying to remedy this cause, is also something that should be of interest to every citizen.

Any discussion, it seems to The Register, which creates an interest resulting in the highest possible intelligent education, is something that certainly should be encouraged.

The Register had no thought of leaving the impression that the educators were more complacent, as to our economic and political problems, than were other groups, especially than newspapers have been.

WORK WELL DONE

Students at the Santa Ana Junior college who were responsible for the publication of Del Ano, the college year book, have received considerable praise for the excellence of the editorial and typographical work in the book, and rightly so, for it is an outstanding example of what can be done in school with intelligent leadership and cooperation.

Aside from the attractiveness of the annual, the subject matter also is of a high order, designed as a record of the last year of sophomores in the junior college and also to appeal to those students who yet have another year before graduation.

Various sections in the book are marked with attractive photographs of students, teachers and campus views. There are many colorful photographs, many of which carry out the national park theme adopted for the publication this year. Edna Wilson, editor of the year book, and her staff of capable assistants are to be congratulated on the excellence of their work.

GERMANY'S PLIGHT

Wall Street Journal

Beneath the almost infinite complexity of technical details which clouds discussion of German finance and economics there is a situation as simple as it is serious. In homely phrase, it is a case of an attempt to get a quart out of a pint pot.

Germany has for some time concentrated her main effort upon a tremendous scheme of rearmament requiring large supplies of material and much labor. Her foreign trade and foreign credit being gravely cramped, she has been obliged to draw heavily upon the living standards of her people to accomplish her armament, and she has had to devise an infinite variety of financial expedients to spread the country's available domestic capital over a continually increasing field of demand. The financial web has now worn painfully thin, and the pressure upon the people's living standards has now grown painfully great. What else could happen with a limited supply of necessities and a limited possibility of "kiting" credit?

It is simply a repetition of Germany's experiences under the war "blockade" of 20 years ago, though of course upon a scale less severe. But the "blockade" upon her today, although not the result of definite policies on the part of frankly hostile nations, is as real as was that of 1916, so far as its effects are concerned, and those effects are cumulative. It is a situation that cannot indefinitely continue and according to appearances must somehow or other come to a head before very long.

Perhaps in this very tension lies the hope that its relaxation may be peaceful at least for a while. Most observers agree that German military men regard the nation as not yet ready for war. Whether or not the country could stand yet further restriction of its economic life for the time necessary to make it ready to fight is the real question which the Fuehrer must decide. It is at least possible that his recent statements concerning European peace may truly reflect his mind, for all the signs indicate the advantages to Germany of the re-entry of the Rhineland.

However that may be, there is no mystery in the ultimate fates of the matter, or as to the causes of Germany's present plight.

Little Renny's
Note Book

By LEE PAPE

Pop was smoking and thinking after supper and he said to ma, "Do you feel all rite, you look a little strange, somehow."

I never felt fatter in my life, how do you mean, strange, for land sakes? ma said, and pop said, "By golly I know, you haven't got your diamond ring on."

Of course I have, why no I haven't, O dear what can have happened to it? I mean nothing can happen to it, naturally, but I had it on when I went down to dinner and I certainly haven't had it off since, why should I? And yet it's off. O dear, this is dreadful, ma said, and I said, Well G, ma, wouldn't it be a funny thing if we was having fish for dinner about 10 years from now, and you cut the fish open and your diamond ring jumped out?

Very funny indeed, and very impossible, ma said, and I said, Well why would it, ma? You mite of dropped your ring in the bathtub and it went all a ways down and through and finely a fish thawt it was something to eat and ate it, and that was the fish, I said.

Such a thawt, I wasn't anywhere near the bathtub, at least I don't think I was, O dear, if you're going to have such absurd ideas, please have them privately, ma said.

Meaning not out loud, and pop said, your mother is quite rite, Benny, your supposition is rather fantastic. Now if you had mentioned a duck instead of a fish, you would have fallen more with in the bounds of probability. In other words it's quite plausible to suppose that the ring slipped off her finger while she was leaning out the front window, and that a wild duck mistook the diamond for a dragon fly and snapped it up, he said.

That's impossible, I mean about the window, O dear what a gassy idea, ma said, and pop said, But now that I come to think of it here's your ring in my vest pocket. Some time you really will lose it, need I warn you again? he said, and ma said, No you needn't.

The final result being pop had to take her to the movies.

Thoughts On
Modern Life

BY GLENN FRANK

KEEPING FAITH WITH THE FUTURE

The unborn, as Dean Inge said long ago are part of our constituency although they have no vote at the polls.

If we build and maintain a national life that stabilizes and enriches life for the millions we shall keep faith with these generations to come even if we never talk lavishly about building for the future.

If we fail in this . . . If we squabble among ourselves, each for himself and his group and none for the nation . . . If we plot and connive for narrow advantage . . .

If we whimper always of our rights and forget our duties . . . If we fail to bend all the magnificent new powers of science and the machine to the benefit of the last and least of our people . . .

THEN . . . We shall break faith with the unborn, . . .

If we permit or promote a bitterness that puts class against class . . .

If we fail to emancipate ourselves from the prejudice, the passion, and the partisanship that so often blind us to reality . . .

If we go on confusing issues by our everlasting warfare of selves from our vester interests and vested ideas . . .

If we fail to weld ourselves into a living unity of purpose to achieve the good life for citizen and state . . .

THEN . . . We shall break faith with the unborn, . . .

OUR CHILDREN

By ANGELO PATRI

YOUR FEET

Dear boys and girls: Take care of your feet. They must carry you for many a day and year. They must bear you up in fair weather and foul, over rough places and smooth. They are the only pair of feet you can ever have, so take care of them as you would your right hand and your eyes.

Wash them and dry them carefully. Give the in-between places a gentle swishing with warm, soapy water, rinse them free of soap, dry them gently. Now powder them a little to make them cool and comfortable. Attend to the nails. Keep them free of foreign matter, and keep them short enough to protect the toes and still not get in the way of the stocking and shoe. Nails that are allowed to grow their own way can disfigure one.

Give your feet a daily airing. After a bath they like to feel the air flowing over them. They like to feel the soft grass under them, too. If it is possible to exercise them on soft grass so much the better. If not, then air them in your own bedroom by allowing them to stay uncovered for a time.

Select your shoes to fit your feet. Don't buy a shoe because it looks well on your chum's feet. Your feet are your own, and they are built on individual lines. May be the stylish shoe does not fit your style of foot. If it does not, don't buy it, for no shoe looks so bad as the ill-fitting one. You have seen a girl tottering along on spike heels, her toes thrust into a tip that could not admit them, her instep bulging and swollen above the restricting line. An uglier sight cannot be imagined.

When using a swimming pool be sure to wear your slippers to walk from the locker to the pool side. Neglect in this particular is likely to bring on an infection which is very unpleasant. Use your own towels and never lend them to anyone else. The same rule applies to slippers.

Wear shoes appropriate to the occasion. Keep your dancing slippers for dancing, your walking shoes for hiking. Wear well-fitted, comfortable shoes through the day. Give your patient feet their bit of care every evening. Your health will be benefited, your vision helped, your personal feeling of well-being greatly accented. After all, you travel on your feet. You need them if you are to get where you are going and that means anywhere from where you are to "fairly worlds unknown."

Cordially yours,
ANGELO PATRI.

ined, but the poor child thinks her feet beautiful because the movie star, or the girl in the big house wears them gracefully.

A beautiful foot is the free foot, the one that has the spring and the grace of youth in it. Select the shoe that allows free movement, that accents your own foot lines. Never mind the size, but make certain that it is the size that your foot requires. Ill-fitting shoes produce corns, bunions, ingrowing nails, all the ugly deformities to which mistreated feet are exposed.

Editor Register:

Dear Sir:

The well written letter from the correspondent from "Albion" suggests the reason of so unexplainable and none too easily understood, alphabetical arrangements of our brain trusters.

In a discussion with small children relative to their school activities, they were asked how well they had learned their A, B, C's. An up-to-the-minute school teacher present spoke up indignantly and asked why the children should be expected to know such unnecessary, whoa, did they have after they had learned them.

Later a dictionary was brought in and the topics lead around to where an older pupil of hers was requested to find some information in it. This 7th grade pupil could not do so nor could another star pupil of hers make any better headway.

Now, is the craze for alphabetical lists just the effort of our brain trusters to wade through the alphabet with AAA their effort to start, not remembering the next and TVA their effort to finish leaving them feeling that they had left out something between T and V and were starting over at A again.

There are more of us who desire our children to spell and write so it we are able to send them to college, they can send home for money in a letter we can read. Then we trust they can count up two and a half so they can correctly apportion the probable remittance we send to them.

More power to an editor who seems to have his feet on the ground. We need a return not to horse and buggy days but to fundamental things where basic facts are organized so matters can be analyzed other than in a harem scream matter making it necessary to tag alphabets all over them.

and then have no systematic correlation of functions of these branches.

Possibly some of the information bureau set up in Washington to inform the various departments as to the where-a-bouts of the many other departments might also inform the brain trusters as to the where-a-bouts of the letters of the alphabet and then with that practice of fundamentals they might tackle just a trifle harder problem, whoa, did they have after they had learned them.

I wouldn't for the world suggest that a person who accidentally or through some effort attains to the position of a pedagogue doesn't know more about how to raise children than parents might. By even intimating that these educators might not know it all, I would be afraid that I would be placed in the same category of the editor and be told to go on over and stand in the corner with the dunce cap on my head to show the world how far short my kind come from appreciating persons who by virtue of their position become the last word, unapproachable, non-correctable, un-impeachable and un-answervable.

At that we still have some good teachers who defy their superiors and as the correspondent states, realize the sitting on a log method of personal approach, who have tasted enough of competitive life and living to ground the student in fundamental precepts which are axiomatic for true and full living.

Yours truly,
